**NATURAL HERITAGE RESOURCES OF VIRGINIA:
RARE ANIMAL SPECIES
MARCH 2013**

INTRODUCTION

The Virginia Department of Conservation and Recreation's Division of Natural Heritage (DCR-DNH) was established to protect Virginia's biological diversity. DCR-DNH is the state's first comprehensive program for conservation of our natural heritage, and includes an intensive statewide biological inventory, field surveys, electronic and manual database management, environmental review capabilities, and natural area protection and stewardship. Through its actions the Division identifies Natural Heritage Resources that are in need of conservation attention while creating an efficient means of evaluating the impacts of balanced economic growth. Natural Heritage Resources are defined in the Virginia Natural Area Preserves Act of 1989 (Section 10.1-209 through 217, [Code of Virginia](#)), as the habitat of rare, threatened, and endangered plant and animal species; exemplary natural communities, habitats, and ecosystems; and other natural features of the Commonwealth.

To achieve this protection, DCR-DNH maintains lists of the most significant elements of our natural diversity. These lists focus the Division's inventory on the Natural Heritage Resources most likely to be lost without conservation action in the near future. Most importantly, these lists are useful not only for DCR-DNH, but can be used by other agencies, organizations, and individuals to assist in the determination of actions in protection and development decision-making. In formulating these lists, the Division uses information from previous studies, museum records, observations and opinions of experts, DCR-DNH staff scientists, and field inventories.

The Virginia Rare Animal List contains information on the legal and biological status of Virginia's rarest known native animals, including vertebrates, insects, and selected other invertebrate groups. This list includes those species that are believed to be sufficiently rare or threatened to merit an inventory of their status and locations. Certain marine species that are listed as federally endangered or threatened are only included in the appendices. Only those species that use discrete habitat patches or can directly benefit from habitat protection are included on the main taxonomic lists.

Natural Heritage Resource lists are necessarily dynamic, with updates occurring as new data become available. Such revisions assure the most current knowledge of the status of Virginia's animals. Animals are added to the list when it is determined that they have become rare or threatened to such an extent that their continued existence in the Commonwealth is in jeopardy. Animals are deleted from the list when additional field surveys or other new data indicate they are more common than previously believed and do not warrant priority conservation efforts.

The watch lists that are included in this report contain information on the biological status of animal species that are uncommon or of uncertain status in Virginia. More information is needed on most of these species, which may or may not be of high conservation concern at this time. Some species included on the watch lists were formerly on the Rare Animal List but have been determined to be more common than previously believed. Other species on the watch lists are declining and may warrant placement on the Rare Animal List in the future if their populations continue to decline.

All animals that are officially protected by federal or state endangered species acts are included in this list (except as noted above). Federally listed species are protected by the Endangered Species Act of 1973, as amended. The U.S. Department of the Interior's Fish and Wildlife Service administers the Act, listing and protecting federally endangered and threatened species. The Virginia Department of Game and Inland Fisheries has the regulatory responsibility for the listing and protection of the state's endangered and threatened animals (excluding the Class Insecta) under the Virginia Endangered Species Act (Section 29.1-564 through 570, [Code of Virginia](#)). The Office of Plant Protection within the Virginia Department of Agriculture and Consumer Services has regulatory responsibility for the listing and protection of the state's insects (and plants) under the Virginia Endangered Plant and Insect Act (Section 3.1-1020 through 1030, [Code of Virginia](#)). DCR-DNH is a primary source of recommendations to each of the regulatory agencies for species that are in need of listing as endangered or threatened.

The Virginia Department of Conservation and Recreation, the U.S. Fish and Wildlife Service, the Virginia Department of Game and Inland Fisheries, and the Virginia Department of Agriculture and Consumer Services work cooperatively to insure the continued survival of Virginia's diverse fauna and other elements of natural diversity. The Division of Natural Heritage also works closely with many other state and federal agencies, local governments, conservation organizations, and many other organizations and individuals to seek adequate protection of Virginia's natural heritage.

LIST FORMAT

The Rare Animal List is sorted by broad taxonomic groups and then ordered alphabetically by scientific name within each group. The list format consists of six fields: scientific name, common name, global rank, state rank, federal status, and state status. These fields are also used in the lists appearing in Appendices 1-5. To aid in the interpretation of the lists, a brief explanation of each field and a summary of abbreviations follow.

Column 1. Scientific name:

Nomenclature of animals is not contained in any single source. The most recent taxonomic sources are examined by the staff zoologist and, when necessary, direct consultations with experts are used to maintain the most scientifically accepted names for all animal groups. Divergences from these opinions are rare and generally occur only while an ongoing taxonomic study is being conducted. Contact the staff zoologist if you have questions or comments regarding the scientific names used herein.

Column 2. Common name:

A common name is provided for the convenience of the user. Standard common names have been developed and universally adopted for only a few animal groups; therefore, the user is cautioned to use scientific names whenever possible. The common names for most vertebrates and a few selected aquatic invertebrate groups (e.g., mussels) are recognized as stable. Most invertebrate species lack common names and it may not be practical to provide such names. They are usually indicated in the list as “a caddisfly”, “a millipede”, etc. The primary sources of common names applied to species in selected groups included in this list can be found on page 6. Many other common names that appear in the list, especially those of invertebrates, are not widely used or universally accepted.

Column 3. Global rank:

Global ranks are assigned by a consensus of the network of natural heritage programs, scientific experts, and NatureServe (a non-profit conservation organization) to designate the rangewide rarity of a species or subspecies. This system was originally developed by The Nature Conservancy and is widely used by other agencies (e.g., U.S. Fish and Wildlife Service, U.S. Forest Service) and organizations as the best available scientific and objective assessment of an animal’s rarity and the level of threat to its existence. The ranks are assigned after considering a suite of factors including the number of occurrences (populations), number of individuals, and severity of threats to the species and its habitats. Global ranks found in the Rare Animal List are explained below:

- G1 Extremely rare and critically imperiled with 5 or fewer occurrences or very few remaining individuals; or because of some factor(s) making it especially vulnerable to extinction.
- G2 Very rare and imperiled with 6 to 20 occurrences or few remaining individuals; or because of some factor(s) making it vulnerable to extinction.
- G3 Either very rare and local throughout its range or found locally (even abundantly at some of its locations) in a restricted range; or vulnerable to extinction because of other factors. Usually fewer than 100 occurrences are documented.
- G4 Common and apparently secure globally, although it may be rare in parts of its range, especially at the periphery.
- G5 Very common and demonstrably secure globally, although it may be rare in parts of its range, especially at the periphery.
- GH Formerly part of the world’s fauna with some expectation that it may be rediscovered; generally applies to species that have not been verified for an extended period (usually >15 years) and for which some inventory has been attempted recently.
- GX Believed to be extinct throughout its range with virtually no likelihood of rediscovery.

- GU Possibly rare, but status uncertain and more data needed.
- G? Unranked, or, if following a numerical ranking, rank uncertain (e.g., G3?).
- G_G_ The rank is uncertain, but considered to be within the indicated range (e.g., G2G4) of ranks (also, T_T_).
- G_Q Taxon has a questionable taxonomic assignment (e.g., G3Q) and may prove to be invalid upon further study.
- G_T_ Signifies the rank of a subspecies (e.g., G5T1 would apply to a subspecies if the species is demonstrably secure globally (G5) but the subspecies warrants a rank of T1, critically imperiled.)

Column 4. State rank:

State ranks are assigned in a manner similar to that described for global ranks, with values that generally range from S1-S5, but consider only factors within the political boundaries of Virginia. For example, an animal that is endemic to Virginia (found nowhere else in the world) will have the same global and state ranks, whereas a species that may be common in the northeastern United States but only known from a few occurrences in Virginia will have global and state ranks that differ. State ranks found in the Rare Animal List are explained below:

- S1 Extremely rare and critically imperiled with 5 or fewer occurrences or very few remaining individuals in Virginia; or because of some factor(s) making it especially vulnerable to extirpation in Virginia.
- S2 Very rare and imperiled with 6 to 20 occurrences or few remaining individuals in Virginia; or because of some factor(s) making it vulnerable to extirpation in Virginia.
- S3 Rare to uncommon in Virginia with between 20 and 100 occurrences; may have fewer occurrences if found to be common or abundant at some of these locations; may be somewhat vulnerable to extirpation in Virginia.
- S4 Common and apparently secure in Virginia, although it may be rare in parts of its range.
- SH Formerly part of Virginia's fauna with some expectation that it may be rediscovered; generally applies to species that have not been verified in the state for an extended period (usually >15 years) and for which some inventory has been attempted recently.
- SX Believed to be extirpated from Virginia with virtually no likelihood of rediscovery.
- SU Possibly rare, but status uncertain and more data needed.
- S_? Rank uncertain. For example the rank S2? denotes a species that may range from S1 to S3.
- S_S_ Rank is uncertain, but considered to be within the indicated range of ranks (e.g., S2S4).
- S_B Breeding status of an animal (primarily used for birds) in Virginia; these species typically inhabit Virginia only during the breeding season.
- S_B/S_N Breeding and nonbreeding status of an animal (primarily used for birds) in Virginia, when they differ.
- SNA A conservation status rank is not applicable because the element is not a suitable target for conservation activities in Virginia (includes accidental species, transients, exotics, etc.).

Column 5. Federal status:

Federal status is determined by the U.S. Fish and Wildlife Service and the National Marine Fisheries Service. This status is used for all animals listed as endangered or threatened by the U.S. government and receiving protection under the federal Endangered Species Act. The list also notes those species that have been formally proposed for listing or are currently candidates under consideration for listing. The federal status formerly known as “Category 2, candidate species” was abolished on February 28, 1996; species formerly designated as “Category 1, candidate species” are now referred to simply as “candidate species.”

- LE Listed Endangered. A taxon threatened with extinction throughout all or a significant portion of its range.
- LT Listed Threatened. A taxon likely to become endangered in the foreseeable future.
- LT/SA Listed as Threatened due to Similarity of Appearance. The species so closely resembles an endangered or threatened species or population that enforcement personnel of the U.S. Fish and Wildlife Service cannot readily distinguish between the taxa (e.g., the northern population of the bog turtle is federally listed as endangered, but turtles from the southern population, which includes Virginia, are not readily distinguishable from them).
- LT/PDL Listed as Threatened but proposed for delisting. The U.S. Fish and Wildlife Service has proposed that this species be removed from the list of Endangered and Threatened wildlife. However, at the present time, the species is still listed as Threatened pending further action and is thus protected under the Endangered Species Act.
- PE Proposed Endangered. A taxon proposed for listing as endangered.
- PT Proposed Threatened. A taxon proposed for listing as threatened.
- C Candidate. There is enough available information to propose the species for listing, but listing is “precluded by other pending proposals of higher priority”. (Formerly Candidate, Category 1)

Column 6. State status:

State status is determined by the Virginia Department of Game and Inland Fisheries (all animals except insects) and the Virginia Department of Agriculture and Consumer Services (insects only). The informal category of “Special Concern” species that was previously maintained by the Virginia Department of Game and Inland Fisheries was abolished by that agency on January 1, 2011.

- LE Listed Endangered; defined as a species that is in danger of extinction throughout all or a significant portion of its range.
- LT Listed Threatened; defined as a species that is likely to become endangered within the foreseeable future.

The following table summarizes the ranks and legal status of the rarest animals tracked by the Virginia Department of Conservation and Recreation, Division of Natural Heritage (pages 7-29 of this list).

Rank ^a	Fish	Amphibians	Reptiles	Birds ^b	Mammals	Invertebrates
GH	0	0	0	0	1	5
G1	8	1	1	0	1	180
G2	10	3	0	1	4	125
G3	15	4	4	4	6	138
SX	3	0	0	0	1	4
SH	2	0	0	5	0	58
S1	31	5	9	38	11	368
S2	36	14	5	24	4	350
Totals	72	19	14	67	16	782
Legal Status						
FE	4	1	1	2	7	29
FT	4	0	2	1	0	2
PE	0	0	0	0	0	2
SE	8	2	4	5	11	47
ST	14	2	3	7	1	15

^aRounded ranks (e.g., G1G2 is combined with G1, S2S3 with S2, G2G4 is treated as G3, S1S3 is treated as S2, etc.); also T ranks are treated as equivalent to G ranks for the purposes of this table.

^bBreeding ranks used for S ranks of birds in this table.

Changes in legal status since the June 2010 DCR rare animal list

Delistings:

Bald Eagle – this species is no longer listed as endangered or threatened at either the state or federal level

New Listings:

Black Rail – State Endangered (Virginia Department of Game and Inland Fisheries; effective January 1, 2013)

Rayed Bean (mussel) – Federally Endangered (U.S. Fish and Wildlife Service; effective February 14, 2012)

Snuffbox (mussel) – Federally Endangered (U.S. Fish and Wildlife Service; effective February 14, 2012)

Sheepnose (mussel) – Federally Endangered (U.S. Fish and Wildlife Service; effective March 13, 2012)

Spectaclecase (mussel) – Federally Endangered (U.S. Fish and Wildlife Service; effective March 13, 2012)

Atlantic Sturgeon – Chesapeake Bay population listed as Endangered (National Marine Fisheries Service; effective February 6, 2012)

Virginia Northern Flying Squirrel – Federally Endangered status was reinstated in June 2011 per court order (previously delisted by the U.S. Fish and Wildlife Service in August 2008)

Taxonomic changes affecting listed species:

Blackside Dace – scientific name changed from *Phoxinus cumberlandensis* to *Chrosomus cumberlandensis*

Tennessee Dace – scientific name changed from *Phoxinus tennesseensis* to *Chrosomus tennesseensis*

Longhead Darter (*Percina macrocephala*) - currently listed as state threatened but Virginia populations are now referable to the newly described Sickle Darter (*Percina williamsi*)

Tan Riffleshell (*Epioblasma florentina walkerii*) - currently listed as federally and state endangered but Virginia populations are now referable to the newly described Golden Riffleshell (*Epioblasma florentina aureola*)

<i>Bos bison</i> = <i>Bison bison</i>	American bison	G4	SX		
<i>Canis lupus</i> = <i>Canis lycaon</i>	Gray (= eastern timber) wolf	G4G5	SX	LE	LE
<i>Canis rufus</i>	Red wolf	G1Q	SX	LE	
<i>Cervus elaphus</i> = <i>Cervus canadensis</i>	Wapiti or elk	G5	SX*		
<i>Puma concolor couguar</i> = <i>Felis concolor couguar</i>	Eastern cougar (= mountain lion, puma)	G5THQ	SX	LE	LE
INVERTEBRATES					
BIVALVIA (MUSSELS)					
<i>Epioblasma haynsiana</i>	Acornshell	GX	SX		
<i>Epioblasma lenior</i>	Narrow catspaw	GX	SX		
<i>Epioblasma torulosa gubernaculum</i>	Green-blossom pearlymussel	G2TX	SX	LE	LE
<i>Lampsilis abrupta</i>	Pink mucket	G2	SX	LE	LE
<i>Villosa fabalis</i>	Rayed bean	G2	SX	LE	LE
<i>Villosa trabalis</i>	Cumberland bean	G1	SX	LE	LE

*The last record of a native elk in Virginia was from 1855. Small numbers of reintroduced elk from eastern Kentucky have moved into far southwestern Virginia in recent years and are currently considered a game species by the Virginia Department of Game and Inland Fisheries, which has initiated plans to translocate additional elk to that portion of the state in the near future.

APPENDIX 4. NATURAL HERITAGE VERTEBRATE WATCH LIST

SCIENTIFIC NAME	COMMON NAME	GLOBAL RANK	STATE RANK	FEDERAL STATUS	STATE STATUS

<i>Ranatra australis</i>	Southern water scorpion	G5	S3
<i>Stachyocnemus apicalis</i>	Sandpit alydid bug	G4	SU
<i>Tominotus communis</i>	A burrower bug	G5	S2S4

HOMOPTERA (CICADAS, LEAFHOPPERS & RELATIVES)

<i>Trialeurodes phlogis</i>	Phlox whitefly	GU	SU
-----------------------------	----------------	----	----

NATURAL HERITAGE INVERTEBRATE WATCH LIST (continued)

SCIENTIFIC NAME	COMMON NAME	GLOBAL RANK	STATE RANK	FEDERAL STATUS	STATE STATUS
COLEOPTERA (BEETLES)					
<i>Anthophylax hoffmani</i>	A longhorned beetle	G?	S1S3		
<i>Calligrapha pnirsa</i>	A leaf beetle	G3	S1S3		
<i>Cicindela dorsalis media</i> = <i>Habroscelimorpha dorsalis media</i>	White tiger beetle	G4T3T4	S3		
<i>Cicindela purpurea</i>	Purple tiger beetle	G5	S3		
<i>Cicindela splendida</i>	Splendid tiger beetle	G5	S3		
<i>Diabrotica cristata</i>	A leaf beetle	G?	SU		
<i>Helops sulcipennis</i>	A flightless darkling beetle	G3?	S1S3		
<i>Hoperius planatus</i>	A predaceous diving beetle	G?	SU		
<i>Hydrobiomorpha casta</i>	A water scavenger beetle	G?	SU		
<i>Megacephala carolina</i> = <i>Tetracha carolina</i>	Carolina big-headed tiger beetle	G5	S3		
<i>Nicrophorus defodiens</i>	A burying beetle	G4	S3		
<i>Paralichas trivittis</i> = <i>Odontonyx trivittis</i>	A beetle	G?	SU		
<i>Pentagonica picticornis</i>	A ground beetle	G?	S1S3		
<i>Phloeoxena signata</i>	A ground beetle	G3?	S3		
<i>Pseudaptinus lecontei</i>	A ground beetle	G?	S1S3		
<i>Stenocorus schaumi</i>	Schaum's longhorn beetle	G?	S1S3		
<i>Urographis triangulifer</i> = <i>Graphisurus triangulifer</i>	A longhorned beetle	G4?	SU		
TRICHOPTERA (CADDISFLIES)					
<i>Agapetus hessi</i>	A glossosomatid caddisfly	G4G5	S2S4		
<i>Agapetus iridis</i>	A glossosomatid caddisfly	G5	S2S4		
<i>Agapetus pinatus</i>	A glossosomatid caddisfly	G5	S2S4		
<i>Brachycentrus solomonii</i>	A brachycentrid caddisfly	G4	S2S4		
<i>Brachycentrus spinae</i>	A brachycentrid caddisfly	G4	S2S4		
<i>Ceraclea ophioderus</i>	A leptocerid caddisfly	G5	S2S4		
<i>Ceratopsyche alhedra</i>	A hydropsychid caddisfly	G5	S2S4		
<i>Cheumatopsyche gracilis</i>	A hydropsychid caddisfly	G5	S2S4		
<i>Cheumatopsyche gyra</i>	A hydropsychid caddisfly	G4G5	S2S4		
<i>Cheumatopsyche halima</i>	A hydropsychid caddisfly	G5	S2S4		
<i>Cheumatopsyche parentum</i>	A hydropsychid caddisfly	G3	S3		
<i>Chimarra augusta</i>	A philopotamid caddisfly	G3G4	S3		
<i>Culoptila cantha</i>	A glossosomatid caddisfly	G5	S1S3		
<i>Frenesia difficilis</i>	A limnephilid caddisfly	G5	S2S4		
<i>Frenesia missa</i>	A limnephilid caddisfly	G5	S2S4		
<i>Goerita betteni</i>	A caddisfly	G4	S2S4		
<i>Glossosoma intermedium</i>	A glossosomatid caddisfly	G5	S2S4		
<i>Homoplectra doringa</i>	A hydropsychid caddisfly	G5	S2S4		
<i>Hydropsyche catawba</i>	A hydropsychid caddisfly	G3	S3		
<i>Hydropsyche franclemonti</i>	A hydropsychid caddisfly	G5	S2S4		
<i>Hydropsyche hoffmani</i>	A hydropsychid caddisfly	G3G4	S3		
<i>Hydropsyche opthalmica</i>	A hydropsychid caddisfly	G3	S3		
<i>Hydroptila ajax</i>	A microcaddisfly	G5	S1S3		
<i>Hydroptila amoena</i>	A microcaddisfly	G5	S2S4		
<i>Hydroptila fiskei</i>	A microcaddisfly	G3G4	S2S4		
<i>Hydroptila talladega</i>	A microcaddisfly	G4	S1S3		
<i>Hydroptila vala</i>	A microcaddisfly	G4	S2S4		
<i>Hydroptila virgata</i>	A microcaddisfly	G5	S1S3		
<i>Ironoquia parvula</i>	A limnephilid caddisfly	G5	S2S4		
<i>Ithytrichia clavata</i>	A microcaddisfly	G5	S2S4		
<i>Lepidostoma pictile</i>	A lepidostomatid caddisfly	G5	S2S4		
<i>Leptocerus americanus</i>	A leptocerid caddisfly	G5	S2S4

<i>Graphisurus triangulifer</i>	<i>Urographis triangulifer</i>	A longhorned beetle	38
<i>Habroscelimorpha dorsalis dorsalis</i>	<i>Cicindela dorsalis dorsalis</i>	Northeastern beach tiger beetle	23
<i>Habroscelimorpha dorsalis media</i>	<i>Cicindela dorsalis media</i>	White tiger beetle	38
<i>Heterocloeon rubrolaterale</i>	<i>Iswaeon rubrolaterale</i>	A mayfly	20
<i>Holomelina ferruginosa</i>	<i>Virbia ferruginosa</i>	Rusty tiger moth	42
<i>Holomelina immaculata</i>	<i>Virbia immaculata</i>	Immaculate tiger moth	42
<i>Holomelina nigricans</i>	<i>Virbia nigricans</i>	A tiger moth	29
<i>Homohadena badistriga</i>	<i>Sympistis badistriga</i>	Brown-lined sallow moth	42
<i>Hybopsis cahni</i>	<i>Erimystax cahni</i>	Slender chub	7
<i>Hybopsis dissimilis</i>	<i>Erimystax dissimilis</i>	Streamline chub	33
<i>Hybopsis insignis</i>	<i>Erimystax insignis</i>	Blotched chub	33
<i>Hybopsis labrosa</i>	<i>Cyprinella labrosa</i>	Thicklip chub	7
<i>Hybopsis monacha</i>	<i>Erimonax monachus</i>	Spotfin chub (= turquoise shiner)	7
<i>Incisalia irus</i>	<i>Callophrys irus</i>	Frosted elfin	26
<i>Incisalia polios</i>	<i>Callophrys polios</i>	Hoary elfin	26
<i>Itame abruptata</i>	<i>Speranza abruptata</i>	A geometrid moth	42
<i>Itame evagaria</i>	<i>Speranza evagaria</i>	A geometrid moth	42
<i>Itame exauspicata</i>	<i>Speranza exauspicata</i>	A geometrid moth	42
<i>Itame ribearia</i>	<i>Speranza ribearia</i>	Currant spanworm moth	29
<i>Itame subcessaria</i>	<i>Speranza subcessaria</i>	Barred Itame moth	42
<i>Lagochila lacera</i>	<i>Moxostoma lacerum</i>	Harelip sucker	32
<i>Lampropeltis getula nigra</i>	<i>Lampropeltis nigra</i>	Eastern black kingsnake	9
<i>Lampropeltis triangulum elapsoides</i>	<i>Lampropeltis elapsoides</i>	Scarlet kingsnake	33
<i>Lampsilis orbicularis</i>	<i>Lampsilis abrupta</i>	Pink mucket	14
<i>Lastena lata</i>	<i>Hemistena lata</i>	Cracking pearlymussel	14
<i>Lepipolys perscripta</i>	<i>Sympistis perscripta</i>	Scribbled sallow moth	29
<i>Leurognathus marmoratus</i>	<i>Desmognathus marmoratus</i>	Shovel-nosed salamander	9
<i>Lexingtonia dolabelloides</i>	<i>Pleuronaia dolabelloides</i>	Slabside pearlymussel	14
<i>Libellula exusta</i>	<i>Ladona exusta</i>	White corporal skimmer	21
<i>Libellula julia</i>	<i>Ladona julia</i>	Chalk-fronted corporal skimmer	21
<i>Ligumia ochracea</i>	<i>Leptodea ochracea</i>	Tidewater mucket	35
<i>Ligumia recta latissima</i>	<i>Ligumia recta</i>	Black sandshell	14
<i>Limnaoedus oocularis</i>	<i>Pseudacris oocularis</i>	Little grass frog	33
<i>Liochlorophis vernalis</i>	<i>Opeodrys vernalis</i>	Smooth greensnake	33
<i>Lithacodia albidula</i>	<i>Protodeltole albidula</i>	A noctuid moth	42
<i>Lithobates virgatipes</i>	<i>Rana virgatipes</i>	Carpenter frog	33
<i>Lithophane lepida adipel</i>	<i>Lithophane adipel</i>	A pinion moth	28
<i>Loxagrotis apicalis</i>	<i>Dichagyris grotei</i>	A noctuid moth	28
<i>Lutra canadensis</i>	<i>Lontra canadensis</i>	River otter	34
<i>Merolonche dolli</i>	<i>Acronicta dolli</i>	Doll's dagger moth	27
<i>Mesodon christyi</i>	<i>Fumonelix christyi</i>	Glossy covert	12
<i>Mesodon clingmanicus</i>	<i>Fumonelix wheatleyi clingmanicus</i>	Clingman covert	12
<i>Mesodon kalmianus</i>	<i>Inflectarius kalmianus</i>	Brown globelet	12
<i>Mesodon panselenus</i>	<i>Patera panselenus</i>	Virginia bladetooth	13
<i>Microcreagris valentinei</i>	<i>Lissocreagris valentinei</i>	Valentine's cave pseudoscorpion	16
<i>Mitoura hesseli</i>	<i>Callophrys hesseli</i>	Hessel's hairstreak	26
<i>Moxostoma ariommum</i>	<i>Scartomyzon ariommus</i>	Bigeye jumprock	33
<i>Moxostoma hamiltoni</i>	<i>Thoburnia hamiltoni</i>	Rustyside sucker	8
<i>Neadysgonia telma</i>	<i>Gondysia telma</i>	Telma darkwing moth	28
<i>Neonympha areolatus septentrionalis</i>	<i>Neonympha helicta</i>	Helicta satyr	27
<i>Notropis hypsinotus</i>	<i>Hybopsis hypsinotus</i>	Highback chub	7
<i>Notropis lirus</i>	<i>Lythrurus lirus</i>	Mountain shiner	8
<i>Notropis whipplei</i>	<i>Cyprinella whipplei</i>	Steelcolor shiner	7
<i>Nuttallornis borealis</i>	<i>Contopus cooperi</i>	Olive-sided Flycatcher	10
<i>Nycticorax violaceus</i>	<i>Nyctanassa violacea</i>	Yellow-crowned Night-heron	10
<i>Odontonyx trivittis</i>	<i>Paralichas trivittis</i>	A beetle	38
<i>Oligia crytora</i>	<i>Neoligia crytora</i>	A noctuid moth	41
<i>Oligia exhausta</i>	<i>Neoligia exhausta</i>	A noctuid moth	41
<i>Ophiogomphus alleganiensis</i>	<i>Ophiogomphus incurvatus alleganiensis</i>	Allegheny snaketail	21
<i>Oporornis philadelphia</i>	<i>Geothlypis philadelphia</i>	Mourning Warbler	10

APPENDIX 6 (continued)

Synonym	Name used in lists above	Common name	Page
<i>Percina macrocephala</i>	<i>Percina williamsi</i>	Sickle darter	8
<i>Phoxinus cumberlandensis</i>	<i>Chrosomus cumberlandensis</i>	Blackside dace	7
<i>Phoxinus tennesseensis</i>	<i>Chrosomus tennesseensis</i>	Tennessee dace	7
<i>Phyciodes pascoensis</i>	<i>Phyciodes cocyta</i>	Northern crescent	27
<i>Phyciodes selenis</i>	<i>Phyciodes cocyta</i>	Northern crescent	27
<i>Physeter catodon</i>	<i>Physeter macrocephalus</i>	Sperm whale	30
<i>Pipistrellus subflavus</i>	<i>Perimyotis subflavus</i>	Tricolored bat	34
<i>Plauditus rubrolateralis</i>	<i>Iswaeon rubrolaterale</i>	A mayfly	20
<i>Plecotus rafinesquii macrotis</i>	<i>Corynorhinus rafinesquii macrotis</i>	Eastern big-eared bat	11
<i>Plecotus townsendii virginianus</i>	<i>Corynorhinus townsendii virginianus</i>	Virginia big-eared bat	11
<i>Pleurobema maculatum</i>	<i>Pleurobema oviforme</i>	Tennessee clubshell	14
<i>Pleurobema pyramidatum</i>	<i>Pleurobema rubrum</i>	Pyramid pigtoe	14
<i>Polygyra plicata</i>	<i>Millerelix plicata</i>	Cumberland liptooth	13
<i>Polyzonium rosalbium</i>	<i>Petaserpes rosalbus</i>	A millipede	18
<i>Pseudaptinus pygmaeus</i>	<i>Thalpius pygmaeus</i>	A ground beetle	24
<i>Pterourus appalachiensis</i>	<i>Papilio appalachiensis</i>	Appalachian tiger swallowtail	39
<i>Pyrgus wyandot</i>	<i>Pyrgus centaureae wyandot</i>	Appalachian grizzled skipper	27
<i>Rhodoecia aurantiago</i>	<i>Pyrrhia aurantiago</i>	Aureolaria seed borer moth	29
<i>Richia grotei</i>	<i>Dichagyris grotei</i>	A noctuid moth	28
<i>Schinia inclara</i>	<i>Schinia siren</i>	A flower moth	29
<i>Seiurus noveboracensis</i>	<i>Parkesia noveboracensis</i>	Northern Waterthrush	11
<i>Semiothisa distribuaria</i>	<i>Macaria distribuaria</i>	A geometrid moth	28
<i>Semotilus margarita</i>	<i>Margariscus margarita</i>	Pearl dace	33
<i>Sphaeroderus nitidicollis schaumi</i>	<i>Sphaeroderus schaumi</i>	Schaum's false snail-eating beetle	24
<i>Sphinx eremita</i>	<i>Lintneria eremita</i>	Hermit sphinx	41
<i>Stenotrema leai alicia</i>	<i>Euchemotrema leai</i>	Lowland pillsnail	12
<i>Sterna antillarum</i>	<i>Sternula antillarum</i>	Least Tern	11
<i>Sterna caspia</i>	<i>Hydroprogne caspia</i>	Caspian Tern	10
<i>Sterna maxima</i>	<i>Thalasseus maximus</i>	Royal Tern	11
<i>Sterna nilotica</i>	<i>Gelochelidon nilotica</i>	Gull-billed Tern	10
<i>Sterna sandvicensis</i>	<i>Thalasseus sandvicensis</i>	Sandwich Tern	11
<i>Stizostedion canadense</i>	<i>Sander canadensis</i>	Sauger	8
<i>Sylvilagus obscurus</i>	<i>Sylvilagus transitionalis</i>	New England cottontail	34
<i>Sympetrum janeae</i>	<i>Sympetrum internum</i>	Cherry-faced meadowhawk	21
<i>Tetracha carolina</i>	<i>Megacephala carolina</i>	Carolina big-headed tiger beetle	38
<i>Tetragoneuria canis</i>	<i>Epitheca canis</i>	Beaverpond baskettail	20
<i>Tetragoneuria costalis</i>	<i>Epitheca costalis</i>	Stripe-winged baskettail	37
<i>Tetragoneuria semiaquea</i>	<i>Epitheca semiaquea</i>	Mantled baskettail	20
<i>Tetragoneuria spinosa</i>	<i>Epitheca spinosa</i>	Robust baskettail	21
<i>Trichopterulum packardi</i>	<i>Zygonopus packardi</i>	Packard's blind cave millipede	36
<i>Trichopterulum weyeriensis</i>	<i>Zygonopus weyeriensis</i>	Grand Caverns blind cave millipede	19
<i>Trichopterulum whitei</i>	<i>Zygonopus whitei</i>	Luray Caverns blind cave millipede	19
<i>Trionyx spiniferus</i>	<i>Apalone spinifera</i>	Spiny softshell	9
<i>Troglodytes troglodytes</i> (in part)	<i>Troglodytes hiemalis</i>	Winter Wren	11
<i>Vermivora pinus</i>	<i>Vermivora cyanoptera</i>	Blue-winged Warbler	34
<i>Vermivora ruficapilla</i>	<i>Oreothlypis ruficapilla</i>	Nashville Warbler	10
<i>Wilsonia canadensis</i>	<i>Cardellina canadensis</i>	Canada Warbler	34
<i>Wyeomyia haynei</i>	<i>Wyeomyia smythii</i>	Pitcher plant mosquito	29
<i>Xestia tenuicula</i>	<i>Pseudohermonassa tenuicula</i>	A dart moth	42
<i>Zanclognatha gypsalis</i>	<i>Zanclognatha theralis</i>	A noctuid moth	29

APPENDIX 7. RARE SPECIES SIGHTING FORM

Virginia Department of Conservation and Recreation, Division of Natural Heritage
217 Governor Street, Richmond, Virginia 23219
(804) 786-7951

An important component of the natural heritage inventory and protection process involves gathering information from state experts, professionals, and avocational naturalists throughout the state. To facilitate this, the Division of Natural Heritage has developed this rare species sighting form. If you would like to participate in our inventory and protection activities, please take a few moments to complete the attached form for any species from our rare species list. These data will be evaluated for incorporation into the natural heritage database and used exclusively for the protection of the rare species and its habitat. Please send the form to the staff zoologist at the address above. Thank you for your support. The Division of Natural Heritage can only realize the protection of the Commonwealth's natural diversity by working through a network of knowledgeable and concerned individuals.

SPECIES OBSERVED:

DATE OBSERVED:

COUNTY:

USGS QUADRANGLE MAP NAME (if known; mark location on a photocopy of the appropriate map and submit with this form):

LOCATION (Provide a detailed description, including directions from nearest town, road intersection, etc.):

HABITAT DESCRIPTION (Include associated species, elevation, natural features, natural community type, etc.):

POPULATION DATA (Number of individuals observed, age, size, evidence of reproduction,etc.):

LANDOWNER (If know, provide name, address, and phone number):

THREATS TO SPECIES OR EVIDENCE OF HABITAT DISTURBANCE:

REPORTED BY (Include name, address, and phone number):

DATE OF REPORT:
