

DESIGN MEMORANDUM NO. 3-96

TO: Chief District Engineers  
Design Engineers  
Active Consultants

FROM: John B. Sacksteder, Director  
Division of Design

DATE: February 7, 1996

SUBJECT: Curve Widening and Superelevation-  
Single Lane Pavement, RGS-001-04

During the process of metricating the standard drawing "CURVE WIDENING AND SUPERELEVATION-SINGLE LANE PAVEMENT", the chart "CURVE WIDENING IN METERS FOR TWO-LANE PAVEMENTS" was converted from english to metric incorrectly. The drawing has been revised and renamed "CURVE WIDENING AND SUPERELEVATION TRANSITIONS" to comply with the 1994 "POLICY ON GEOMETRIC DESIGN OF HIGHWAYS AND STREETS".

Full size reproducibles for use in roadway plans are available upon request from the Division of Highway Design, Standard Drawing Section.
