OUR BEAUTIFUL COLOR ILLUSTRATIONS

The World-Famous Rose, AMERICAN BEAUTY. (See page 1 of cover.)

This Rose has become as famous as the Marechal Niel. The flowers of this grand Rose are so eagerly sought that they sell in the flower stores of the larger cities during the holiday season at the extravagant price of from one dollar and a half to two dollars for a single bud or flower. Indeed, the market is never fully supplied with them, even at this high price. It is because of its large size, rich color and delicious fragrance. It is a hardy Rose, of the largest size, having the ever-blooming qualities of the Tea Rose, with the delicious odor of the Damask or Moss Rose. It is the sweetest of all Roses. In color it is a deep, brilliant red, shading to a rich, carmine crimson. American Beauty is like Marechal Niel, difficult to start from small plants, therefore we advise our customers to buy strong plants of it. This Rose will never be sold cheaply, for the reason it is hard to propagate. Price, strong young plants, 20 cents each; large two-year-old plants, 50 cents each. Extra large three-year-old plants, \$1.00 each.

Golden Privet.

A Beautiful New Golden Foliaged Hardy Plant,

Golden Privet The Great Hedging Plant

Conceded to be the best plant for hedging purposes. Remarkable for the beauty of its golden evergreen foliage and strong, regular, symmetrical growth. The foliage is beautifully variegated yellow and green; very glossy and wax-like. Price, 20 cents each; three for 50 cents. Extra large plants, 35 cents each. See cut.

The Famous Cochet Set of Hardy Ever-Blooming Roses

(See Illustration on 4th Page of Cover.)

If you want four of the finest hardy ever-blooming Roses for outdoor cultivation, varieties that will produce hundreds of flowers throughout the growing season, order the four Cochet Roses. No matter where you live, they will give you absolute satisfaction.

RED MAMAN COCHET (Helen Gould).

The Most Satisfactory Rose for General Planting Ever Introduced in America.

Grows in almost any soil or situation, and produces its superb flowers in amazing profusion on long, strong shoots. The flowers are of immense size, as large as American Beauty resembling it in fragrance and color. For vigorous growth and freedom of bloom without a peer. The flowers are full and perfectly double, the buds beautifully made, long and pointed. Color, warm, rosy crimson. Hardy everywhere. Price, 15c each; large two-year-old plants, 40c each.

The Grand New Rose, YELLOW MAMAN COCHET

In introducing this variety we wish to say unqualifiedly that it is absolutely the best hardy, ever-blooming, yellow Rose in existence. In the open ground it is superb—a typical Cochet Rose, with its gracefully molded buds, magnificent open flowers, stiff, strong stems, heavy foliage, and with the vigor of growth and blooming capacity that has made the Cochet Roses the best of their class and color. It has already become the most sought after Rose in our collection. It is identical in every way with Pink and White Cochet, except in color of flower, which is DEEP SULPHUR YELLOW. It has withstood a temperature in the open ground of 10 degrees below zero without protection. It is the first to bloom in the Spring and blooms up until severe frosts. In planting this Rose bear in mind that you are planting the best yellow Rose known. Ours is the original stock and every plant we send out is guaranteed true to name. Price, 20 cents each; large two-year-old plants, 40c each.

Pink Maman Cochet. The Queen of All Pink Garden Roses

Such beauty and exquisite form as is possessed by this variety is well-nigh marvelous and cannot be seen in any other Rose we know, outside of its counterparts, the White and Yellow Maman Cochet. The buds are beautiful, large, full and firm, and elegantly pointed; as they expand they show great depth and richness, sometimes measuring two and a half inches from base to tip. Flowers superb when open, extra large, perfectly double, and of splendid substance. Small pot plants will in the open ground quickly make large, strong bushes, and produce on long, stiff stems, great numbers of perfect flowers that are enchanting in fragrance and delicate brightness. Perfectly hardy in all sections of the country. The color is clear, rich pink, changing to silvery-rose. As we see it, one good Rose, like any of the Cochet Roses, is worth a whole collection of poor ones—at any price. Price, extra fine strong plants, 15 cents each; large two-year-old plants, 35 cents each.

WHITE MAMAN COCHET. The Queen of All White Roses

This superb variety is identical with its parent, Maman Cochet, except in color, which is a snowy-white, sometimes faintly tinged with the slightest suggestion of pale blush. With the same freedom of bloom, magnificent form of buds and flowers, and hardiness, it stands at the head of the list as the best white Rose for open-ground culture. It has the vigor of an oak, being hardy everywhere. Sometimes offered as Priscilla. Price, extra strong plants, 15 cents each; large two-year-old plants, 35 cents each.

We will send the Set of Four Cochet Roses postpaid for 50 cents; the Set in Large Two-year-old Plants for \$1.30.

The Beautiful New Hardy Blue Flower,

STOKESIA CYANEA (Corn Flower Aster).

(See Second Page of Cover.)

A grand, large-flowered, hardy perennial, that is certain to become a favorite. Grows 18 to 24 inches high and is covered with Centaurea-like flowers of a beautiful lavender blue shade, and often four to five inches across. Blooms appear in July and continue freely until late in October, even after frosts have destroyed many of our outdoor flowers. Of easiest possible culture, flourishing wherever given an open sunny exposure. As a single specimen plant, used in mixed borders, or in large masses by itself, it is equally valuable, and by its use some very effective plantings may be worked out. The plants we offer will bloom this season. Price, 15 cents each; two for 25 cents.

The Most Beautiful of All New Hardy Plants, DEUTZIA LEMOINEI

(See Third Page of Cover.)

This is the greatest recent novelty in flowering shrubs. It makes a low, compact bush which in May and June is loaded down with large, round, snowball-like clusters of pure white flowers. We know of nothing more beautiful for the garden, yet it has the added merit of being a grand pot plant for Winter blooming. It is not too large for a pot and blossoms very finely at any time during Winter. It is becoming very popular for Easter, and is a splendid addition to our Decoration Day flowering plants, being one of the finest cemetery plants we know of. Price, for strong blooming plants, 25 cents each; three for 50 cents; very large two-year-old plants, 50c.

OUR LIBERAL MAIL AND EXPRESS CLUBBING RATES.

Are Not Surpassed by Any Reliable House in America.

Why We Can Allow Discount on Plants.

Because our facilities for growing Roses and nearly all kinds of plants are unsurpassed in the United States. Because we grow and sell them by the million, frequently shipping twelve thousand to twenty thousand Roses in one day. Geraniums, Carnations, Begonias, Palms, Ferns, etc., in like proportion.

IMPORTANT!

Please remember that the prices on fruits and Special Offers of plants are net, and we cannot allow any discounts or premiums on them, neither must they be selected as premiums. In no case can we deviate from this rule.

When we offer these "Special Offers and Collections" we already allow a discount on them, hence you will readily understand why we cannot allow a second one. However, every plant in this catalogue is for sale, wherever you find it, whether in a Collection or Special Offer, and whenever you pay for it at price per single plant, you are entitled to premium, and to include it in your premium list.

Why We Cannot Allow Discounts on Fruits.

The prices we quote on fruits are Rock Bottom, in fact, as low as is consistent with good quality. We do not and will not handle cheap and inferior plants, fruits or seeds; they are invariably a disappointment to the buyer, being dear at any price.

Our fruits, with few exceptions, require budding and grafting, planting and transplanting before they are delivered to you and then consider how very low we offer them. This then is the why and wherefore we give you premiums on plants and not on fruit.

All orders for our goods to be sent by express will be sent charges collect, that is, purchasers will pay express charges upon receipt of goods.

All orders to be forwarded by mail we send postage paid by us.

After giving the prepaying system a thorough and careful trial we find that the great majority of our best pleased customers are those who pay the express charges themselves upon receipt of goods giving two very excellent reasons why they prefer to do so: first because they get so many more plants of their own selection gratis; secondly, because the plants arrive in much better condition with a good portion of the soil around the roots, thus insuring uninterrupted growth.

All florists who prepay express charges on plants remove all or nearly all of the soil from the roots, making it equivalent to sending the plants by mail.

We will, however, send any plant order by prepaid express if you do not object to having the soil removed from the roots, and your selection is made in accordance with our mail clubbing rates.

SPECIAL NOTICE—As our Nursery is a separate and distinct department from our Greenhouses, it is necessary that all Fruit Orders be shipped direct from the Nursery, and we therefore ask customers to kindly keep Fruit Orders separate from the Plant and Seed Orders. Fruits will not be shipped with other plants.

Price per 100 will be given on application.

TO OUR FRIENDS AND PATRONS

It is with mingled feelings of pleasure and gratitude we hand you our annual Spring catalogue for 1905. The season just closed has been the most successful in our business career, and to be candid, this is why we "feel good" ourselves, and grateful to our many thousands of patrons in all parts of Uncle Sam's domains. Never before have our spacious greenhouses been so thoroughly stocked with the many good things that help so materially to make the home and surroundings beautiful, and never before have we been so fully prepared to serve you faithfully, promptly and liberally.

Being true believers in reciprocity, we very much desire that all our old friends and patrons should each one induce one of their friends to share with us those feelings of pleasure and gratitude, which can be brought about by sending us your orders and inducing your friends to send their orders for plants and seeds to us this Spring. Everyone knows it pays to feel pleased, in other words, to "feel good." We believe it helps to prolong life, and certainly makes life worth living.

We guarantee you will with us experience feelings of pleasure and gratitude if you send to us for your plants and seeds this Spring. Wishing you abundant success in the culture of your flowers,

We are very truly yours,
SCHMIDT & BOTLEY.

A Big Order For Roses

350,000 (Three
Hundred and
Fifty Thou-
sand) Roses
in One Order.

We have been favored with the largest order for Roses ever sent to Springfield, which is the recognized Rose center of America.

Schmidt & Botley's Roses in Great Demand.

Among others we have on our books for this Spring's delivery one order that calls for the above number of Roses. This big order for Roses was placed with us after due and careful consideration by a well-known influential Eastern concern, to be shipped during the Spring months.

We mention the above that it may convey some idea of the vast number of Roses as well as other plants we grow in like proportion, and it certainly goes to prove that our Roses must be satisfactory in the highest degree. Really, the bare fact that we can grow and dispose of an order for 350,000 Roses without in any way interfering with or impeding the regular routine of business speaks for itself.

Suggestions and Information It Will Pay You to Read.

WHEN BEST TO ORDER

Order early, even though you are not ready to receive your plants. We will get up your order, set it aside, and ship whenever you say. This will insure you receiving the first pick of the stock, before it is broken. Be sure to sign your name, give address, and always sign your name the same. Many orders reach us, lacking either or both. We have a number of unidentified orders on hand.

REMITTANCES

Should be made either by money order, express order, bank draft or registered letter. By remitting as above stated, will be at our risk. United States postage stamps can be sent, if not convenient to remit by any of the above methods. Denominations of 5 and 10 cents preferred. We guarantee all plants to reach their destination in good growing condition; if they do not arrive in such state, please write us promptly just what is wrong or what is missing, and we will give it prompt attention, and replace such plants that arrive in bad condition. However, when plants die some time after they are received in good condition, it is no fault of ours, and we should not be asked to replace them.

CANADA POSTAGE

As postage to Canada is double the United States domestic rate, we must ask our Canadian friends to send 10 cents extra for each \$1.00 worth ordered. Do not send Canadian postage stamps or silver, as we cannot use or dispose of them.

MISTAKES

We make them, but when we do we are always ready to correct them. We guarantee absolute satisfaction to every purchaser. If you think we have made a mistake, tell us so good-naturedly if you can, if not, write us anyway. Do not complain to your neighbors and friends until after you first give us an opportunity to correct mistakes that are usually made by employes, as it is impossible for either member of our firm to attend to all orders, but we will personally give attention to all complaints.

CORRESPONDENCE

If you find occasion to write us, please make letters short and right to the point, and always sign your name the same. Do not write your letter on the order sheet, but use separate paper.

PROMPTNESS

We fully realize the importance of promptness, and nothing would please us better than to ship all orders the same day we receive them. We always make a special effort to do this so long as we can, but in April and May, during the extreme rush, it is impossible for us to do so. We would suggest that from the 10th of April to the last of May you send in your orders a few days before you want your plants. By doing this you will avoid any possible delay during our busiest months, and remember that it takes orders from two to five days to reach us, and the same length of time for shipment to reach you. Use our order sheet, and help us all you can in this way. We have just added six large greenhouses to our already extensive plant, with increased packing facilities, and are in better shape than ever to handle orders promptly.

... OUR FALL CATALOGUE ...

ON THE FIRST OF SEPTEMBER we issue a catalogue of Bulbs and Plants for Fall Planting and Winter blooming, such as Hyacinths, Tulips, Narcissus, Crocus, Ixias, Freesias, etc. We mail this Catalogue to all of our customers of this and last year, and we also send it free to others who wish to order.

.... Ten Hardy....

Ever-Blooming Roses

Our Popular "Hardy Ten" For 1905.

We are constantly in receipt of inquiries from our customers for Roses that are ever-blooming and yet hardy. On this page we again offer a fine collection combining these two qualities.

SPECIAL OFFER—We will send the entire set of Ten very fine plants for only 50c. In splendid two-year-old plants, the set of Ten for \$1.75. This is a splendid collection of Bedding Roses. It cannot be excelled. Must be ordered complete to get them at this price.

The Grand New White Rose, FRANCES E. WILLARD, President of the World's W. C. T. U.—It is with positive pride that we introduce this magnificent new white Rose to our friends. It is a strong, vigorous grower, making handsome bushes. The buds and flowers are of the very largest size, pure white in color, so full and double and perfect in shape as to resemble a Camellia flower. The fragrance is delicious. It is by far the grandest of all true ever-bloomers, belonging to the Tea Rose family. It was eminently fitting that we named this Rose in honor of the hallowed memory of the grandest of all women, **Frances E. Willard**, the great apostle of temperance and Purity, the white Rose being the emblem of the society (W. C. T. U.) for which she gave her life.

Star of Lyon—(Etoile de Lyon.) This magnificent Tea Rose is a rich golden-yellow; a strong, healthy and vigorous grower; immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet. Surely one of the very best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy both as to heat and cold, frequently standing the Winters here uninjured in open ground without protection and blooming nicely through all the hottest part of the Summer.

Mad. Franciska Kruger—Probably the best all round bedding Rose we have. Its shadings of deep coppery yellow stand distinct and unique.

Clothilde Soupert—The best of all pot Roses, literally loaded with bloom at every stage of growth. Color, beautiful pinkish amber, flushed with silvery rose with shades of salmon. A beautiful Rose.

We have been offering our popular "Hardy Ten" ever-blooming set of Roses for the past ten years. Every year the demand for it increases. This speaks for itself. It is better than ever this Spring.

Burbank—A perfectly hardy, free flowering, ever-blooming Rose. The flowers are double, of fine form, nearly three inches across. The color is a deep rose pink, shading to a beautiful soft rose at the center. The petals are well incurved, so that the center is hidden. In September and October the outer petals change to a deep, rich carmine. Delightfully fragrant.

Champion of the World—Every one wants a hardy ever-blooming Rose. From early Summer until frost it can be depended upon to produce flowers in abundance; color rich glossy pink, delightfully fragrant, and such a strong, vigorous grower that it is almost invulnerable against attacks of insects; thus it is certain to be unequalled for the garden or cemetery.

Helen Gould—(The Balduin) This is a most notable production—the strongest growing, freest blooming and hardest Hybrid Tea Rose now known. In healthy, vigorous growth surpasses any we have ever seen. This grand new variety will unquestionably become one of the most famous Roses in cultivation. It is one of the largest and fullest of red Roses long, plump buds, forming flowers of grand size and great beauty, sweet-scented as "June Roses." A most valuable cut-flower variety, rivaling American Beauty. A rapid, abundant grower producing great quantities of large, fine flowers.

Duchess de Brabant—This Rose combines exquisite perfume, beautiful coloring, and a matchless profusion of flowers and foliage. How shall we describe its coloring? Soft, light rose, with heavy shading of amber and salmon. Quite hardy, and in every respect it is admirable.

Hermosa—Everybody knows this famous variety; as hardy as an oak, and always covered with its elegant clear pink blooms. There is no shade of color of any kind to mar its purity. We doubt if any Rose ever grown will take its place.

Scarlet Bedder—This is without doubt the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. Flowers are large size, fiery scarlet, a color rarely seen in Roses. Planted everywhere on account of its color and freedom of bloom.

DOROTHY PERKINS

A New Pedigreed Climbing Rose.

This variety originated from seed of Rosa Wichuraiana, hybridized with pollen from Mad. Gabriel Luizet, resulting in a variety combining hardiness, vigorous habit of growth, beautiful color and remarkable freedom of bloom. Extremely hardy, withstanding the most severe Winters with impunity. The flowers are borne in clusters of from 6 to 10 and are very double, with prettily crinkled petals. Remarkably pretty pointed buds, beautiful clear shell pink in color, lasting a long time without fading.

The flowers are sweet-scented, a characteristic not possessed by the majority of Roses of this class. Dorothy Perkins is of vigorous habit of growth, often making shoots 10 to 15 feet in length during a single season. The foliage is rich, deep green, and of thick, leathery substance. This variety is suitable for situations where a trailing Rose is desired, or it can be trained over arches or other supports. **15 cents each; 3 for 30 cents; two-year-old plants, 40 cents each.**

Debutante and Sweetheart

These beautiful new varieties were awarded silver medals by the Massachusetts Horticultural Society, which is sufficient testimony of their worth.

Debutante—Has beautiful soft pink flowers, of large uniform size, full, double and very fragrant; borne in clusters like Crimson Rambler. A very vigorous climber. **25 cents each.**

CLIMBING METEOR.

The Wonderful New Rose, Climbing Kaiserin, or MRS. ROBERT PEARY.—This is by all odds the most remarkable new Rose of recent introduction. It is an offspring of that grand variety, Kaiserin Augusta Victoria. The flowers are extra large, full, deep and double, and produced on long stiff stems. The buds are long and pointed, a remarkable feature not found in any other Climbing Rose. The color and shape of the bud and flower are identical with Kaiserin Augusta Victoria. Pure ivory white. The fragrance is delicious. The most remarkable feature of this new variety, however, is that it blooms continuously the first year. It grows to perfection outdoors, throwing up numerous shoots 10 to 15 feet high in a single season. **Price, 15 cents each; two-year-old plants, 35 cents each.**

Reine Marie Henriette—An excellent crimson-flowered ever-blooming climber. The flowers are exquisitely formed, very double and full. Nicely Tea scented; strong growing and very free flowering. **Price, 15 cents each; large two-year-old plants, 35 cents each.**

President Cleveland—(Known also as Climbing Marie Guillot). It is one of the most rapid growing and vigorous climbing white Roses we have ever seen. It blooms continuously throughout the season, the first and every year. The flowers are magnificently made, extra large, deep and double. The buds are particularly beautiful, and the fragrance is delightful. **Price, 10 cents each; two-year-old plants, 30 cents each.**

The Mary Washington Rose—A hardy perpetual blooming climber, producing large, double, snow-white blossoms in great profusion from June until frost. Its flowers are pure white, perfectly double to the center, sweet, and borne in endless numbers all Summer. It is a vigorous grower. It makes a great profusion of fine buds, which are borne on long stems, and will produce more flowers and buds than a dozen ordinary Roses. Its fragrance is tinged with that old-fashioned musky flavor so much admired in olden times. **Price, fine, strong plants, 10 cents each; large, two-year-old plants, 35 cents each.**

New, Hardy, Ever-blooming Rose, CLIMBING CLOTHILDE SOUPERT—For years Clothilde Soupert has stood out as one of the greatest Roses in cultivation. It is our good fortune to introduce in this variety a climbing offspring of Clothilde Soupert Climbing Clothilde Soupert has the same vigorous constitution of its parent, combined with its truly wonderful freedom of bloom and its extreme hardiness. In a single season small plants will grow 15 to 25 feet, producing cluster after cluster of finest formed flowers. They are distinct, large, round, full and double, with beautifully imbricated petals, and deliciously sweet. The color effect is magnificent—ivory white shading toward the center to a silvery-rose. Cluster after cluster of flowers are produced throughout the entire season, and the bush at all times is literally loaded with them. It needs no protection, having withstood with us a temperature of 20 degrees below zero in the open ground without protection. This is unquestionably one of the most important introductions of recent years. This variety will take its place among the great Roses, such as Crimson Rambler, Mrs. Robert Peary, etc. By all means include it in your order. Satisfaction is assured to all who plant it. **Price, 15 cents each; two-year-old plants, 35 cents each.**

The Empress of China—A new, hardy, ever-blooming climbing Rose that blooms the first season—early, late and all the time—producing flowers which in form and color resemble apple blossoms. When it first opens the flowers are a beautiful red, but soon turn to a lovely light pink, and it blooms so profusely as to almost hide the plant. It is perfectly hardy and is a vigorous grower. **Price, 10 cents each; large two-year-old plants, 35 cents each.**

The Grand New Velvety-Red Rose, CLIMBING METEOR—The brightest colored of all Roses. Climbing Meteor is the acme of all red climbing Roses. It is a free, persistent bloomer and will make a growth of from 10 to 15 feet in a season; in bloom all the time, as it is a true ever-bloomer. Its flowers are much larger than Meteor, and are rich in color. **Price, 10 cents each; large, two-year-old plants, 35 cents each.**

The Climbing Roses offered on this page are the Cream of the Ever-blooming Climbers.

5 FAMOUS HARDY RAMBLER ROSES

CRIMSON, PINK, WHITE, YELLOW and ROSE

The White Rambler

The White Rambler, THALIA—This charming new Rose of the Rambler variety is a wonder. It climbs rapidly, is entirely hardy; produces immense clusters of pure white Roses; perfectly double, of delightful fragrance and of an immaculate white. The best white climbing Rose extant. Price, 10 cents each; very large two-year-old size, 30 cents each.

The Yellow Rambler, AGLAIA—This promises to supply that "long-felt want," a double yellow hardy climbing Rose, a thing which has been sought after the world over. Related to Crimson Rambler, and, like it, blooms in large trusses, often bearing from 120 to 150 flowers in a cluster, lasting three or four weeks without fading. Very popular. Price, 10 cents each; very large two-year-old size, 30 cents each.

New Climbing Rose, CRIMSON RAMBLER—The plant is of vigorous growth, making shoots from 8 to 10 feet during the season, rendering it a charming pillar Rose. It is also magnificent in bush form, and for covering buildings, trellises, etc., it cannot be excelled. One of the striking characteristics of this Rose is its remarkable color, which is of the brightest crimson, which remains undimmed to the end. The flowers are produced in great pyramidal panicles or trusses, each carrying from 30 to 40 blooms, the individual flowers measuring from 1 to 1½ inches in diameter, and remaining perfect on the plant for upward of two weeks. It is exceedingly hardy, having successfully withstood the test in exposed situations of two very severe Winters. Hardy in every latitude yet tried, as far as north as the lakes. Price, 10 cents each; very fine two-year-old size, 35 cents each.

The Pink Rambler, EUPHROSYNÉ—This fine, hardy climbing Rose is very vigorous, and easily reaches a height of 25 to 36 feet. The flowers are borne in clusters, as many as six'y being frequently found in a cluster; they are deep pink, quite full and exceedingly fragrant. We consider it one of the very best hardy climbing Roses, and it may be well named "Pink Rambler." Price, 10 cents each; very large two-year-old size, 30 cents each.

PSYCHE, The New Rambler Rose—Received the award of merit of the Royal Horticultural Society of England. A cross between Crimson Rambler and the Polyantha Rose, Golden Fairy. In growth and habit it much resembles the Crimson Rambler. The flowers are produced in clusters of 8 to 35, and are 2 to 2½ inches across when fully expanded. The color is white, suffused with salmon rose and pink, with yellow base to the petals. A real companion to Crimson Rambler. The horticultural press of England gives it very flattering comment as described at the various exhibitions. Price, 10 cents each; large two-year-old plants, 35 cents each.

Blooms of Marechal Niel.

The Lovely Orange-Yellow Rose,

WILLIAM ALLEN RICHARDSON.

Large, double, orange yellow, with outer petals lighter, center a coppery-yellow, very rich, rapidly becoming popular. All Rose growers, where the climbing Teas are hardy, should plant this beautiful Rose, as it is a unique and lovely shade of yellow. Something entirely distinct in Climbing Roses. Price, 10 cents each; two-year-old plants, 30 cents each.

Remember we are Headquarters for Big "Niels." They are one of our Specialties.

THE WHITE MARECHAL NIEL.

Identical with its famous parent, save in color. The fame of Marechal Niel, with its large, deep, golden-yellow flowers, is so world-wide that nothing further need be said of this new variety to make it instantly popular than that it is the exact counterpart in every respect of Marechal Niel, its parent, save the color of flower, which is a creamy white. Totally distinct. It is a rapid climber, and quickly makes a bush of considerable proportions. For Southern cultivation it will be of great value, and as a companion plant to Marechal Niel we anticipate a splendid demand for it. Price, strong, well-established plants, 10 cents each; nice two-year-old plants, 25 cents each; extra large size, 35 cents each.

THE YELLOW MARECHAL NIEL.

The World-Renowned Rose.

A beautiful deep, sulphur-yellow, very large and exceedingly fragrant. It is the finest yellow Rose in existence. It has a climbing habit and where it is allowed to grow until it attains a large size, as it will in a few years, it yields thousands of beautiful golden-yellow flowers. Especially desirable for the South. We have a grand stock of this variety in three sizes. Price, strong one-year-old plants, 10 cents each; large and nicely shaped two-year-old bushes at 35 cents, and an extra strong, robust fellow, that will take care of himself anywhere—the best you ever got—50 cents.

THE RED MARECHAL NIEL

This grand new Rose is a strong, vigorous grower; flowers large, full, and of fine form; color a pure cherry-red and sweet-scented. A splendid Rose, and destined to become very popular. Offered for the first time last Spring. Price, 10 cents each; large, two-year-old plants, 40 cents each.

NOTE—We would strongly advise ordering the large Niels by express. Success is then certain.

The Lovely Pure White Rose

FRANCES E. WILLARD.

A strong, vigorous grower, making handsome bushes. The buds and flowers are of the very largest size, pure white, so

full and double and perfect in shape as to resemble a Camellia flower. The fragrance is delicious. There is nothing among white Roses to compare to it. It is by far the grandest of all white Roses. This we say without hesitancy. It is a true ever-bloomer, belonging to the Tea Rose family. It was eminently fitting that we named this Rose in honor of the hallowed memory of the grandest of all women, FRANCES E. WILLARD, the great apostle of temperance and purity, the white Rose being the emblem of the Society (W. C. T. U.) for which she gave her life. Price, 15 cents each; large, two-year-old plants, 35 cents each.

Hardy Ever-Blooming LA FRANCE ROSES

The full set of lovely La France Roses for only 40 cents.
The set in large two-year-old-plants for - - - \$1.25.

These are perfectly hardy Roses blooming constantly, and have the most admirers of any Roses we grow. There are no better Roses than the La France Roses. A distinctive characteristic of the set is the true La France fragrance, by which every one may be known.

PINK LA FRANCE.

PINK LA FRANCE

It is of superb form, and double as a Rose can be. No variety can surpass it in delicate coloring—silvery-rose shades with pink. It has a satin seen over all its petals. It is most universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored and fragrant in the highest degree. Price, 10 cents; large size, 30 cents.

STRIPED LA FRANCE

(Madame Angeliqe Veysset.)

The striped La France combines all the good qualities of a La France in growth, fragrance, shape of bud and flower; in fact, differs not from it except in color. It is nicely striped, the marking being plain and distinct, the variegation being a beautiful bright rose on a satin-pink ground. Price 10 cents each; large two-year-old size, 30 cents.

THE RED LA FRANCE

(Duchess of Albany)

We have no hesitancy in saying to our customers that this Rose stands at the head of all Roses, not excepting La France. What we wish to impress is the fact that as a Rose for all purposes, it has no peer. It is identical with La France, excepting in three points. Those are: A more vigorous growth, a large and more expanded flower, and a deep, even pink in color; not shaded, but what is called a solid color. Price, 15 cents each; large two-year-old size, 35 cents each.

WHITE LA FRANCE

(Augustine Guinnoiseau)

Here we have a beauty indeed; one we can recommend to all, whether for outdoor culture or for pots in the house for Winter. It is identical with La France except in color. It is pearly white, sometimes tinted with fawn. Price, 10 cents each; large two-year-old size, 35 cents.

**NEW TEA ROSE
SNOWFLAKE**

It is a lovely new white Tea—the freest flowering Rose we have ever seen. The Rose was introduced by C. Strauss & Co., of Washington, D. C., and by them grown in large quantities for cut flowers, they claiming it the most profitable white Rose they grow; that they had counted 153 buds and flowers on one plant in a single day, and the plant less than a year old. **Nice young plants of this novelty for 10 cents each; large plants, 25 cents each.**

THE BRIDE

This is undoubtedly the finest white Rose ever offered to the public, and we take great pleasure in recommending it to all our customers. It is a Rose that supplies a long felt want. A few of the white ever-blooming Roses now in commerce have beautiful double flowers, but none of them compare with the Bride in the size and shape of buds and half expanded flowers. **Price, 10 cents each; large two-year-old plants, 25 cents each.**

MARIE GUILLOT

We consider this variety the equal, if not the peer, of any Rose of its color in cultivation. A trial will convince anyone that this endorsement is not extravagant. The flowers are full and extra large, very double and sweetly scented; has many rivals, but no equals for open ground cultivation. **Price, 10 cents each; large two-year-old plants, 25 cents each.**

New Pure White Royal Tea Rose

KAISERIN AUGUSTA VICTORIA

The Best White Rose in the World.

This beautiful Rose has not only a royal name, but is a royal Rose as well. We have elegant white Roses that have elegant buds, but when full blown are not all that is desired. Then again we have white Roses that are elegant when full blown, but have poor buds. This Rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open; color, pure creamy-white. It far surpasses any other white Rose in all particulars, and has a much richer perfume. **Price, 10 cents each; large two-year-old plants, 30 cents each.**

The Beautiful New Tea Rose

WHITE MAMAN COCHET

The finest Rose of the year. Like its parent, the growth is vigorous, with rich, healthy foliage, producing large, fine flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet, and all who have tried it pronounce it the finest bedding Tea Rose in existence. We would advise all who love choice Roses to plant at least one of this beautiful new Rose. **Price, 10 cents each; large two-year-old plants, 35 cents each.**

THE BEAUTIFUL KAISERIN.

The Beautiful New Pure White Rose, IVORY

This is a superb new Rose, identical with its parent (the lovely Golden Gate, from which it is an offspring), except in color of flower, which is pure glistening ivory white. It has the same freedom of bloom, magnificent form of buds and flowers, which are marvelously beautiful in their perfection. Strong and vigorous, scarcely equalled for its matchless profusion of bloom, it will be eagerly sought after by amateur and professional Rose growers alike. **Price, for nice strong one-year-old plants, 20 cents each; two-year-old plants, 30 cents each.**

We are often asked why it is we sell our large two-year-old Roses so cheap. The reason is, we make a specialty of growing large sized Roses. The heavy Spring trade is not over before we are planting and preparing thousands upon thousands of Roses to meet the demand that we know will come for our big Roses the following Spring. This is why our two-year-old Roses are so popular and so cheap. We prepare one year ahead, grow them in vast quantities and sell them cheap.

The Grand New Bedding Rose, GRUSS AN TEPLITZ

As a bedding Rose this is one of the finest and most useful varieties ever sent out. The color is brightest scarlet, shading to deep, rich, velvety-crimson. It is very fragrant. The freest grower and the most profuse of any ever-bloomer. The mass of color produced is wonderful, and the foliage is extremely beautiful, all the younger growth being a bronzy plum color. A queen among scarlet bedders. It is a perfect sheet of richest crimson-scarlet all Summer. Price, 10 cents each; large two-year-old plants, 30 cents each.

New Hardy, Ever-blooming Rose, HELEN GOULD

This is probably the most beautiful and satisfactory Rose for general planting ever introduced in America. It has proved itself to be the strongest growing, freest blooming, largest flowering and hardiest Rose in existence. It is a better Rose for general planting than American Beauty—the dream and hope of every Rose grower for years past. The flowers are full and perfectly double, the buds beautifully made, long and pointed. The color is warm, rosy crimson, like the color of a ripe red watermelon. It is as hardy as La France. Price, 15 cents each; very fine two-year-old plants, 35 cents each. See cut.

New Crimson Rose, PRINCESS SAGAN

The flowers of this variety are the richest crimson of any Rose in our vast collection. A single bud or blossom will catch the eye at a great distance, so brilliant is the color. Indeed, it is unmatched in its velvety richness; could be well termed "The Velvet Rose." It is as free in blooming as Bon Silene. Price, 10 cents each; large two-year-old plants, 25 cents each.

PERNET'S TRIUMPH.

The flowers are extra large, having broad, thick petals and long, tapering buds, with delicious Tea fragrance. Color a fine, clear magenta-red, sometimes passing to a bright crimson. Very striking and beautiful, and of such good substance that the flowers retain their beauty for a long time. Price, 15 cents each; two-year-old plants, 30 cents each.

THE METEOR.

A velvety-red ever-bloomer of the deepest glowing crimson, as fine as a Hybrid. Flowers are of a medium size, very double and slightly recurving. A beautiful open Rose, a free bloomer, and a very excellent pot Rose. Has no tinge of violet or purple to mar beauty. A vigorous, bushy grower, with healthy bright foliage of the deepest green. Unquestionably the best dark velvety-red Rose yet produced. Grand, both in bud and flower. Price, 10 cents each; large two-year-old plants, 25 cents each.

SCARLET BEDDER.

This is, without doubt, the very best of all red Roses for bedding. It can be planted anywhere, being entirely hardy. Flowers are large size, fiery scarlet, a color rarely seen in Roses. Planted everywhere on account of its color and freedom of bloom. Price, 10 cents each; large two-year-old plants, 25 cents each.

Our Large Two-Year-Old Roses are Unexcelled. They are big, bushy, well rooted plants, sure to give satisfaction.

HARDY ROSES--HYBRID PERPETUALS.

A SPLENDID LIST COMPLETE IN EVERY PARTICULAR. NONE BETTER. NONE SO CHEAP.

Hybrid Perpetuals are considered the most valuable of all hardy Plants. They are distinguished by their vigorous, upright growth and large, bold flowers, frequently measuring five to six inches in diameter. When you plant Hybrid Perpetuals you may be quite certain of having Roses every year without further trouble. Though called perpetual, it must be understood that they are not such early and constant bloomers as the ever-blooming Roses. The Hybrid Perpetual should not be ordered for house culture, as they are not suitable for that purpose. Do not become impatient if your plantings of these do not bloom the first season. Give them a chance to become established. These Roses are especially suited to plant in all the Northern States and Territories; also in the colder parts of the States of Virginia, West Virginia, Kentucky, Tennessee, North Carolina, Arkansas, Missouri, etc.

NOTICE:—We would call the attention of our patrons to the fact that some are sending out our American Wonder Lemon under the fictitious name of "Ponderosa." When ordering this marvelous Lemon, send to us. We introduced it; we named it, and we have by far the largest stock in the world of this splendid lemon.

THIS TRULY WONDERFUL LEMON

Was introduced for the first time to the public by us in the Spring of 1899. Since that time we have grown and sent out thousands to all parts of the country, and the reports we have received from our patrons in all quarters as to its productiveness and size is very flattering.

THE AMERICAN WONDER is a true ever-bearer, blooming and fruiting at the same time. Think of sixty Lemons setting from one branch of bloom on a small twig. It has bloomed and set fruit on the naked trunk of the tree. There is no lemon in the world to compare with it.

Plant of American Wonder Lemon. First crop of fruit 10 large lemons weighing from $1\frac{1}{2}$ to $3\frac{1}{2}$ pounds. (See letter below).

THE AMERICAN WONDER has deliciously fragrant flowers. It is far beyond any other lemon in fragrance.

THE AMERICAN WONDER is wonderful in size. Actual weight of fruit from three to four pounds.

THE AMERICAN WONDER as a house plant. If our Wonder Lemon did not produce a single bloom or fruit it still would eclipse many of the plants used now for decorative purposes. We say this to let you know that it is one of the most desirable of house plants. It will stand all kinds of rough usage and neglect and still look well. The foliage is deliciously fragrant, is very large, thick and leathery, of the deepest green. You can prune it into any size or shape desired without affecting its blooming or fruiting. We think it a far more decorative plant as to foliage alone than the famous Rubber Tree, but when in full bloom with fruit in all stages of development, from wee, tiny things to the wonderful golden yellow fruit, then it is a "thing of beauty and a joy forever." It is a grand plant for a tub to be kept indoors.

ITS FLAVOR unsurpassed. The lemons have very thin rind for such large fruit. It is the juiciest of all Lemons, makes delicious lemonade, and for culinary purposes cannot be excelled. It is not uncommon to make twelve lemon pies from one lemon. All who have tasted this Lemon unite in saying that for delicious flavor no other lemon could approach it. It is not a lime fruit, and does not resemble a Lime in any particular. American Wonder is the largest, juiciest, richest flavored Lemon ever produced. Lemons sold under other names are claimed to be as large and fine as American Wonder. It is false. Get the true American Wonder.

Its culture. Plant it in any good garden soil in a large pot or small tub, and keep it in the house or cellar during the Winter. You can set the tub and plant out on the piazza or lawn when the weather gets warm. Give plenty of water while it is growing. No plant is easier to grow.

THE AMERICAN WONDER on its own roots. We guarantee the trees to produce the same large fruit. No budding or grafting. Every plant we send out is on its own roots, and will produce fruit as freely and large as shown in the photograph on opposite page.

CHAS. F. MILLER, being first duly sworn, says that he drew from nature the Lemon as shown on the opposite page of this Catalogue. He further certifies that there were a number of lemons on the same tree, nearly as large as the drawing mentioned.
CHAS. F. MILLER.

Subscribed in my presence and sworn to before me by the said CHAS. F. MILLER, this 23d day of September, A. D. 1899.

SCHMIDT & BOTLEY, Springfield, Ohio:

I send you a picture of the American Wonder Lemon plant I bought of you in Spring 1901. It is a fine plant. I gathered from it today 10 Lemons which weigh from $1\frac{1}{2}$ to $3\frac{1}{2}$ pounds. Our cook says the 10 will make 120 pies. Truly the Lemons are wonderful. The plant is in every way satisfactory
F. M. G.

NOTE.—The picture Mr. G. sent us is a beauty, showing the big, handsome fruit to great advantage. What Mr. G. has done you can do, if you buy your Lemon plants from us.

NURSERY, TEXAS, Nov. 2, 1904.

SCHMIDT & BOTLEY, Springfield, Ohio:

Dear Sirs:—Please quote American Wonder Lemons in 100 lots. We would like to have them 12 to 18 inch size, for shipping out this Winter.

We will likely need several hundred before Spring. We have one tree with sixty large fruit on. We got the plants from you two years ago.

Yours respectfully,

G. ONDERDONK CO.

TUSCALOOSA, ALA., Sept. 2nd, 1904.

SCHMIDT & BOTLEY, Springfield, Ohio:

Dear Sirs:—The illustration you have of the American Wonder Lemon does not compare with my two trees purchased from you two years ago. Both trees are laden with large lemons weighing now about five pounds and not fully developed—innumerable small fruit and in blossom at same time. I have to prop the limbs.

Yours very respectfully,

MRS. M. P. JEMISON.

This is the Best Early White "Mum" we have in our superb collection.

Flower of Mrs. Henry Robinson (1-2 Natural Size.)

MRS. HENRY ROBINSON.

In the entire Chrysanthemum family there is no grander white variety, no matter when it blooms; it is of the most popular style—immense incurving, broad channeled petals of great substance and the purest white—can be used a few days earlier, but it is a sin to cut it until the center petals have begun to develop; from a

flat incurved form it gradually changes into a perfect ball of snow; foliage as handsome as that of Mrs. Jerome Jones; a variety of the easiest arrangement. We do not think it possesses a single fault. Winner of 26 first prizes. Price, 10 cents each; three for 25 cents.

We have the finest and most complete Assortment of "Mums" in our City—Cheapest, Too.

OUR CHALLENGE COLLECTION OF "MUMS" === Continued.

The Lovely Chrysanthemum Mrs. Perrin—The flower is of globular form, incurved, full and with a finish as soft as satin, color rose-pink within, glistening pink without. Mrs. Murdock

The New Yellow, Col. D. Appleton—It is an ideal exhibition variety, with flowers of immense size, measuring 22 inches in circumference and of great depth. Our Early Flowering

Chrysanthemums

We get many inquiries for Chrysanthemums that bloom early. For the benefit of those who want early "Mums" we here offer a very fine collection, embracing the choicest sorts and a wide range of color.

We will send the full set of Ten early "Mums" for only 50 cents; any five for 30 cents.

MRS. HENRY ROBINSON

In the entire Chrysanthemum family there is no grander white variety, no matter when it blooms; it is of the most popular style—immense incurving, broad channeled petals of great substance and the purest white; from a flat incurved form it gradually changes into a perfect ball of snow; foliage as handsome as that of Mrs. Jerome Jones. We do not think it possesses a single fault. Winner of 26 first prizes.

BENJ. J. GIROUD

Is the richest deep crimson variety we have ever seen and excels in its color as Golden Wedding does in yellow. The color is of the richest velvety-crimson, which in the flower itself is soft and velvety-like. It is, without doubt, the best Chrysanthemum of its color. The flowers are enormous in size, while the color is the richest of all. Winner of nine premiums and certificates. Blooms in October.

MISS KATE BROWN

One of the very finest of all the early whites, coming into bloom the first week in October; fully six inches across; a fine incurved flower, with broad petals; first-class disbudded, and also beautiful in natural sprays.

MRS. J. C. WHILDIN

A handsome light yellow variety of splendid form. Took the Whildin prize at the Philadelphia show.

MME. F. BERGMANN

Still the finest of all the early whites; large in size; coming into bloom October 10th; excellent for pot culture for early flowers.

Flower of Mme. Bergmann

MISS DALSKOV

The latest and greatest acquisition to the Chrysanthemum world. We have thoroughly tested this grand new variety and we cannot say too much in its favor. We had single blooms last Fall that measured ten inches across. In color it is a beautiful pink, entirely distinct from any pink Chrysanthemum yet exhibited.

IVORY

Unexcelled for pot culture or cutting; pure white flower of exquisite form and finish. Has been shown in grand shape at all recent exhibitions; it is especially noticeable for its grand globular form, its dahlia-like petals and absolute purity of color.

MARION HENDERSON

We cut the first flowers on October 10th, several days before any other large yellow was ready, and had perfect flowers to cut a month later. This grand variety will be invaluable for early cut flowers, and we believe will occupy the same position among early varieties that Golden Wedding does among the late ones.

Triumph D'ex de Marseilles

Color, deep amber, shaded with a brown-yellow at the center. Very peculiar in form, having long, pendent lower petals, which droop down some three inches. Center high and full of nicely arranged petals.

VIOLET ROSE

Of very silky texture; petals long and straight, a fine grower; flower of extra large size and fine color, which, as the name implies, is a beautiful violet rose.

The Enormous New Pink Ostrich Plume Variety,

Mrs. Higinbotham

Enormous bright pink, broad-spreading Japanese variety; with extremely wide cupping and incurving petals which are covered with granular hairs. Habit, stem and foliage perfect, without any of the weakness usually accompanying hirsute varieties. Awarded certificates at Chicago and Philadelphia. Price, 10 cents each.

TWO MAGNIFICENT UNEQUALED "MUMS"

Golden Wedding, the Grandest Yellow, and Silver Wedding, the Grandest White. Price, 10 cents each, the two for 15 cents.

GOLDEN WEDDING

The grandest golden-yellow variety, and is the marvel of the period. Nothing can exceed the richness of its color; it is a remarkably vigorous grower, and has such strength of stem that it carries its great globular flowers erect, giving it a bold, majestic appearance. The form of the Golden Wedding is unique; the outer petals droop downward in picturesque irregularity, the center of the flower is built high with broad petals irregularly overlaid, so that, although the flowers are large, they are not heavy,

solid looking, like many others. This grand variety has been awarded the highest honors wherever exhibited.

SILVER WEDDING

This variety is of mammoth size, of robust habit, with magnificent foliage, purest snow-white in color, very broad, heavy, deep flower, measuring fourteen inches in diameter. When the flower is several days old the outer petals curl and interlace. Probably the largest of all whites, and no doubt the very best. This charming variety has taken prizes wherever shown.

IF YOU HAVE ROOM FOR ONLY TWO GOOD "MUMS" GOLDEN AND SILVER WEDDING WILL FILL THE BILL.

All orders coming from this place you received through me as I was the first buyer from here and I certainly recommend your greenhouse to all my friends. The order I send you for American Wonder Lemons, each tree is for a different person.

CHOICE BEGONIAS FLOWERING VARIETIES

This beautiful class of plants is deservedly popular. They are suitable for pot culture in the window or the outdoor plant stand. During the greater portion of the year the plants are, in the different varieties, covered with a profusion of graceful, drooping racemes of pink, white, crimson and bi-colored buds and blossoms that are exceedingly attractive, and having a waxy, coral-like appearance. The plants themselves are of neat, compact habit, with glossy green leaves in some varieties and exquisitely cut ones in others.

ARGENTEA GUTTATA (New Begonia.)

It has purple-bronze leaves, oblong in shape, with silvery markings, and is in every way a most beautiful Begonia. It produces white flowers in bunches on ends of growth stems. It will be splendid for house culture. **Price, 10 cents each.** (See cut.)

Medium-sized plants are frequently seen with more than twenty such panicles at a time. Among the individual panicles you will find three distinct forms growing side by side. **Price, 10 cents each.**

Gorgeous Bedding Tuberos-Rooted Begonias.

Have you tried our Superb Bedding Begonias? If you have not you should certainly plant at least a few this spring. They are grand. We have an immense stock and are selling them cheaper than you can buy them anywhere else.

TUBEROUS-ROOTED BEGONIAS.

The Tuberos-Rooted Begonia is the fashionable plant of the day, and richly does it deserve its honors. The very handsomest of our Summer blooming plants, flowering throughout the season, and as fine and varied in their color as the Geranium family. They are splendid bedders, delighting in a light soil of wood earth, very old cow manure and sharp sand. See that the bed is in partial shade, and you will be delighted with the results. In the South, or where they cannot be planted in the shade of a house, a covering of burlap or canvas, some six or eight feet above them, merely to throw off the sun's rays, will allow them to come to absolute perfection, but they must have plenty of light and air. Do not allow them to become dry, and during hot weather they will take two waterings a day. When through flowering they can be dried off, shaken free of earth, and wrapped in cotton until February or March, when they may be started again. Single, Separate Colors, white, scarlet, pink and yellow, 10 cents each; six for 50 cents.

Double, Separate Colors, white, scarlet, pink and yellow, 15 cents each; five for 50 cents.

Grand New Ostrich Plume Fern.

(NEPHROLEPIS PIERSONII.)

We have much pleasure in offering this grand new Fern, which we believe is the finest plant novelty introduced for many years. It resembles the Boston Fern in some ways, but is indescribably more beautiful, and being equally hardy and more easily grown, will at once take its place as one of the grandest and most beautiful decorative plants for house and conservatory culture yet produced. Our photograph gives some idea of its feathery plume-like fronds, though the plant has to be seen to fully appreciate its wonderful beauty. It has taken the highest honors that can be bestowed in this country on any new plant. The fronds are large and heavy, arching in the most graceful manner, and showing two distinct shades of green, which with the young growth produce an exquisite mossy effect, exceedingly beautiful and attractive, and quite as noticeable in small plants as in large ones. It is a quick, rapid grower, not subject to insects or disease, and can be depended on to make a handsome display at once. It is certainly one of the most beautiful and satisfactory decorative plants for house or conservatory ever introduced. **Price, fine strong plants, 25 cents and 50 cents each, postpaid. Extra size plants for immediate decoration, 75 cents and \$1.00 each, by express.**

"MIKADO" FERN BALL

Fern Ball, Growing.

The Wonderful Japanese Fern Ball, Davallia Bullata Nagaha—This novelty imported from Japan, we take great pleasure in introducing as one of the best and most satisfactory house Ferns ever offered.

This ball consists of Fern roots about the size of a pencil, woven outside and around a ball of moss. These roots produce beautiful sprays of Ferns from eyes or buds at nearly every inch of their length. Thus the whole surface of the ball soon becomes covered with Fern sprays. They may be suspended in any part of the room or grown on a stand or table.

Directions for Starting—Place ball in water for 15 minutes and then suspend in any desired position; repeat every two days until growth is started, after which sprinkle occasionally as required. To use in Fern dish, cut ball in halves, placing flat side down, thus getting two dishes of beautiful Ferns. The Fern ball may be allowed to dry up at any time and set away, and started again by watering as before.

Price, for dormant large size, 75 cents each by express; smaller size, 50 cents each, by mail, postpaid.

The Grandest of all Decorative Plants

ARAUCARIA EXCELSA

(Norfolk Island Pine.)

Various names have been selected for this grand plant to properly convey to the mind the appearance of it. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances; its symmetry of form, grace and beauty of foliage are unequalled in the vegetable kingdom. It is easily grown in the house and is highly ornamental. Price, extra fine plants, 4 and 5 tiers of leaves, \$1.50 each. These can only be sent by express. SCHMIDT & BOTLEY'S SELECT HARDY PLANTS

SUITABLE FOR CEMETERY, LAWN AND GARDEN

Hardy perennials are those plants which die down in Winter, but start again in the Spring from the root, lasting many years and flowering every year. Never before have they been so popular, and from present indications of a desire for hardy plants, the demand for them will continue to increase, which will make them as popular in the United States as they have been in the horticultural centers of Europe for many years. Some are very useful for screens, some for hedges, rockeries, steep banks and terraces, others for bedding, edging and bordering and cemetery planting; then again others are fine for cutting to be used for table decorations.

Cultivation is of the simplest, beginning with any good garden soil for a foundation, which may be enriched with any good fertilizer, such as well decomposed manure or bone meal, deeply dug, well pulverized, in which the plants should be set as early in the season as possible, so as to enable them to become well rooted and established before hot, dry weather sets in, keeping the ground well stirred, and where it is not convenient to water the beds during hot, dry weather, a mulch of any loose material which will keep the soil from baking will be found beneficial.

Choice New Fruits and Novelties

Dwarf Juneberry.

IMPROVED DWARF JUNE BERRY.—A good substitute for the large or Swamp Huckleberry. The fruit is borne in clusters and is reddish-purple, changing to a bluish-black. In flavor it is a mild, rich subacid; excellent as a dessert fruit or canned. Price, 10 cents each; \$1.00 per dozen, by mail postpaid.

THE LOGAN BERRY.—A hybrid between the Raspberry and Blackberry. The fruit is as large as the largest Blackberry; and is produced in immense clusters. The color is a clear, dark red. It partakes of the flavor of both the Blackberry and Raspberry—mild, pleasant, vinous flavor, delicious and peculiar to this berry alone. Seeds small, soft and few. Fruit ripens early, just after strawberries. Price, 20 cents each; \$2.00 per dozen by mail postpaid.

ROCKY MOUNTAIN CHERRY.—Improved Dwarf.—From the mountains of Colorado; hardy as a Wyoming sage bush. With its deep green willow-like leaves, mass of pure white flowers in Spring and a load of fruit in Summer, it is well worth cultivation for an ornamental shrub. Makes a bush four or five feet high usually fruiting in two years, producing large quantities of jet-black fruit about the size of English Morello, and ripening after all other Cherries are gone. Price, by mail postpaid, 25 cents each; \$2.50 per dozen.

Good fruit is one of the greatest luxuries a family can have, and those who have a chance to grow it should spare no trouble or expense to secure a good supply of the best sorts. We have carefully prepared a limited list of varieties which are perfectly adapted to all parts of the country. The trees we offer are young and thrifty, and will make a very rapid growth and bear quickly. **All fruits must be sent by Express, unless otherwise stated.** When offered by mail, postage is paid by us; if by express or freight, charges are to be paid by the purchaser; but larger stock will be sent.

SPECIAL NOTICE.—As our Nursery is a separate and distinct department from our greenhouse, it is necessary that all Fruit Orders be shipped direct from the Nursery, and we therefore ask customers to kindly keep fruit orders separate from Plant and Seed Orders. Fruits will not be shipped with other plants. Prices on Fruits are placed very low and we cannot allow them to be included in Club Rates, nor can they be taken as premiums. Price per 100 and 1,000 will be given on application.

Equally as large as Bubach, Glen Mary or Brandywine, and yielding with any variety in our 40-acre fruit plantation. The berries are round as a ball, dark crimson in color; flesh dark, quality first-class, holding up in size to the very last pickings. Price, 50 cents per dozen, postpaid; \$1.50 per 100 by express; if by mail, 30 cents per 100 extra for postage.

UNCLE JIM.—A very large new berry, being planted everywhere on account of its immense size and productiveness. Valuable for market or home garden. AUGUST LUTHER.—The earliest Strawberry grown, fully two weeks ahead of Bubach. Ripens while prices are high, often selling for 20 cents per quart. Such a variety is just what growers have long been looking for. Productive, firm, good flavor; succeeds everywhere. Price, 25 cents per dozen, by mail; 75 cents per 100, by express.

CLIMAX.—A wonderful new variety from Delaware. It is immensely productive, berries large, good color and vigorous grower. Combines all the good points of a valuable Strawberry. One grower in Delaware picked at the rate of 25,166 quarts per acre, which, at 8 cents per quart, would make over \$2,000. Think of it! Send at once for starts. It will do as well for you if you will plant and care for it. Price, 50 cents per dozen, by mail postpaid; \$1.50 per 100, by express. "HAYMAKER"

THE NEW
RASPBERRY

KING.—The earliest Red Raspberry on record. It is the early Red Raspberry that makes the big money—often sell for 25 cts per quart. You want to add this one to your collection. It is thus described by H. E. Van Deman, the well-known pomologist and horticultural writer, of Parkley, Va.: "Round, medium size; light crimson color; moderately firm and of excellent quality. A seedling of Thompson, and ripens about the same time, but larger and more productive."

Ohio Experiment Station, Wooster, Ohio.

The King Raspberry is fine, indeed. Large, firm, beautiful color and prolific. It is far ahead of Loudon or Miller here.

PROF. W. J. GREEN.

Price, 10 cents each; \$1.00 per dozen; \$3.00 per 100.

GOLDEN QUEEN.—This variety is almost identical with Cuthbert, except in color. Fruit large, productive; quality first-class. It is beyond doubt the finest and most profitable yellow berry grown. Price, 10 cents each; \$1.00 per dozen.

THE HAYMAKER is a purple cap. It is a berry to grow for either home use or market. Very popular as a canning berry. Many orders for berries for this purpose are placed a year in advance. One writer located near a canning factory has thus written: "If anyone about here had several acres of it in bearing, he could dispose of the entire crop to good advantage to the canning factory." We have had Haymaker on our own grounds fruiting for three seasons, and find it the most prolific of any variety ever grown. The past season we picked from $\frac{1}{4}$ acre of one-year plants, 50 bushels of fruit, which sold in market from \$3.00 to \$3.75 per bushel. We advise each and every one of our customers to try this valuable new sort. Price, 10 cents each; \$1.00 per dozen; \$3.00 per 100.

CARDINAL.—This new Red Raspberry is rapidly coming into favor, especially in the West. It is a very promising variety; a very strong, hardy grower, needing plenty of room; foliage holds on late, protecting canes until cured. Surprisingly productive; berries large, dark red, firm, rich flavor either raw or canned. Late. Postpaid, 10 cents each; \$1.00 per dozen; \$3.00 per 100.

General List of Raspberries.

Price, 50 cents per dozen; \$2.00 per 100. Add 40 cents per 100 if wanted by mail. By the dozen, postpaid.

BISMARCK APPLE.—Bears fruit on two-year grafts. Finest quality, finest color, dwarf and extremely prolific—most suitable Apple for hot climate, yet the hardiest known. Wherever grown it has proved a most startling revelation, not only in high quality, but also in hardiness and especially in earliness of fruiting. The tree is of stocky, short growth, and when laden with handsome fruit at one or two years old, is very desirable as a pot plant, for table or greenhouse decoration. Fruit is large, brilliant color, and very handsome. Flesh tender, pleasant subacid, of distinct and most delicious flavor, unequalled as a dessert apple, and very superior for cooking, and will keep in an ordinary room till March. Price, by express, first-class, 40 cents each; \$4.00 per dozen; mailing size, postage paid, 25 cents each; or \$2.50 per dozen.

OPALESCENT.—The New Century Apple. All who have examined the Opalescent regard it as the handsomest Apple grown. It is not only highly colored, but susceptible of a very high polish, reflecting objects near it like a mirror. This feature makes it a highly prized sort for fruit stands. The flesh is yellowish, tender, juicy, and good size, large to very large, and color light, shading to very dark crimson. Season December to March. Price, large size, 75 cents each, by express only. Mailing size, 40 cents each; \$4.00 per dozen.
