of bot. aib of bl. aik are a liA PRESS OF J. L. HALEWORTH, KO () STATE AND 55 WASHINGTON STREETS, BOSTON. MESSRS. HOVEY invite the attention of their friends and the public to the new edition of their Gatalogue. It contains many rare and beautiful novelties, worthy the attention of all amateurs.

Green-house plants of all kinds being grown in pots, they may be transported at any season of the year. The season for transplanting the hardy herbaceous plants is April, May and June, in the spring, and September, October and Notember, in the autumn.

Boxes of plants, or bundles of trees, packed in good order, will be delivered in Boston, *free of carpense*, and shipped, orderwarded, according to directions. If no directions are given, the best mode of transportation will be selected; but, in all cases, the goods are at the risk of the purchaser, and if any delay or loss occurs, after shipment, or delivery at the Express Office or Railroad, the Proprietors do not hold themselves respon sible.

All *letters of inquiries,\_or applications\_for\_catalogues*, to receive attention, should enclose a postage stamp.

IF All orders for plants, from unknown correspondents, must be accompanied with a draft on Boston or New York, for the amount.

The Nurseries are situated on the Cambridge road to Mount Auburn, half a mile east of Harvard Colleges, about two miles from Boston, and contain newards of forty acres.

\*\*\* The Cambridge Horse Railroad Cars pass directly by the Nurseries every five minutes during the day, from their Depot in Bowdoin Square, opposite the Revere House.

The following Catalogues are published during the year :---

- FRUIT TREES,—Containing all the finest kinds of Pears, Apples, Peaches, Currants, Grapes, &c., &c.
- ORNAMENTAL TREES AND SHRUBS,-Containing all the most desirable kinds of deciduous and evergreen trees, shrubs and vines, paconies, azaleas, rhododendrons, &c.
- GREEN-HOUSE PLANTS,—Containing complete collections of Azaleas, Camellias, Pelargoniums, Cinerarias, Geraniums, Verbenas, hardy herbaceous plants, &e.

DAHLIAS,-Containing, also, choice Hollyhoeks, Gladioluses, &c.

ROSES,—Comprising a full assortment of summer blooming and hybrid perpetual, tea, and other varieties.

BULBS.-Embracing a fine collection of Hyacinths, Thips, Liliums, &e.

SEED CATALOGUE,—Containing all the newest and best vegetables, and the choicest collection of flower seeds in the country, comprising more than 1000 varieties.

Catalogues forwarded to all applicants, upon the receipt of a three cent stamp.

All orders should be directed to

"Messrs. HOVEY & CO.

7 Merchants Row, Boston."

# NEW AND BEAUTIFUL PLANTS.

IN ADDITION TO OUR GENERAL COLLECTION, EMBRACING ALL THE POPULAR VARIETIES, AS WELL AS MANY NOVELTIES OF RECENT INTRODUCTION, WE TAKE MUCH PLEASURE IN OFFERING THE FOLLOWING DESCRIPTIVE LIST OF NEW AND BEAUTIFUL PLANTS, SEVERAL OF THEM OF GREAT MERIT.

## AZALEA EULALIE VAN GEERT.

A new and beautiful Continental variety, with soft pale blush flowers, of great substance, beautifully spotted with carmine.

PLANTS \$1.50 EACH.

## AZALEA MADAME MIELLEZ.

Another distinct and very fine variety, with large, handsomely formed flowers, pure white, distinctly striped with violet.

Plants \$1.50 Each.

## AZALEA ADMIRATION.

A superb variety, with finely shaped flowers of great substance, white, distinctly striped and penciled with crimson scarlet.

PLANTS \$1.00 EACH.

## AZALEA CRITERION.

A remarkably beautiful variety in the way of Exquisita, but with much better formed flowers, more distinctly marked, and a superior variety.

PLANTS \$1.00 EACH.

#### AZALEA MATTAPAN.

A new American seedling of great beauty. Flowers very large, of remarkable substance, and of the purest white, remaining in bloom a long time. Habit vigorous, and bloom very abundant.

PLANTS \$1.00 EACH.

## CUPRESSUS LAWSONIANA.

A new and beautiful cypress from the north-west. Comes from a high elevation, and is probably hardy. It is one of the most beautiful of the cypresses.

YOUNG PLANTS \$2.00 EACH.

#### GYNERIUM ARGENTEUM.

(Pampas Grass.)

A new and splendid South American grass, but from a very high elevation, and will probably prove hardy with a moderate protection of dry leaves. It grows from ten to twelve feet high, with an immense breadth of beautiful drooping foliage; and strong plants produce from ten to thirty of the most exquisite and graceful panicles of silvery flowers.

FINE PLANTS \$1.50 EACH.

## HYPERICUM OBLONGIFLORUM.

A superb plant from the Himalaya, where it forms a dwarf shrub with evergreen foliage, eovered with elusters of large golden flowers. The habit is neat, and it is eminently deserving a place in the green-house, should it not prove hardy.

YOUNG PLANTS \$1.50 EACH.

#### LILIUM GIGANTEUM.

This magnificent lily is one of the greatest acquisitions to this beautiful tribe of plants. It grows very strong, with large, deep glossy green leaves, and throws up a flower stem from eight to twelve feet high, terminated with a spike of twenty or more large, white, trumpet-shaped flowers, brownish on the outside. In England, it stood out the eold winter of 1853, with a covering of leaves in a temperature of  $5^{\circ}$ . With proper protection, it is hoped it will prove hardy with us. As a decorative plant for the conservatory, nothing can excel it.

FINE SPECIMENS, \$2, \$3, \$5, AND \$8 EACH, ACCORDING TO SIZE.

## MEYENA ERECTA.

A beautiful plant, with much of the habit of a fuchsia, producing large bluish purple flowers of the size of a petunia, with a conspicuous yellow eye or throat. It is of easy culture, and will probably prove a beautiful summer flowering plant.

YOUNG PLANTS \$1.00 EACH.

## PRUNUS SINENSIS ALBA PLENA.

One of the greatest acquisitions from China, and undoubtedly hardy. It is one of the prettiest plants for foreing in the green-honse, its slender stems being profusely decked with large, slightly drooping, very double, white flowers.

YOUNG PLANTS \$1.00 EACH.

#### THUJOPSIS BOREALIS.

A lovely coniferous plant, rivalling, if not surpassing the hemlock in the gracefulness of its habit, and beauty of foliage. It comes from Behring's Straits, and has proved entirely hardy. It grows rapidly, and its great beauty must render it one of the most popular of all coniferous trees.

PLANTS \$1, \$3, AND \$5 EACH, ACCORDING TO SIZE.

#### WISTARIA MAGNIFICA.

A superb hardy elimber, a variety of the native fruteseens, with lilac flowers, having a peculiar metallic sulphur colored spot. It blooms profusely in very compact clusters, and is a rapid growing and fine acquisition to our ornamental plants for trellises or arbors.

STRONG PLANTS \$1.50 EACH.

#### NEW SEEDLING CAMELLIAS.

Messrs. Hovey & Co. will offer for sale in the autumn, two of their new and remarkable Seedling Camellias, due notice of which will be given, with a description of the plants, and terms of subscription.

## NEW SEEDLING JAPAN LILIES.

Messrs. Hovey & Co. having raised several hundred seedlings of these beautiful lilies, during the last twelve years, have selected *nine* of the most distinct and fine, which they will offer for sale in the autumn of 1850. Descriptions of the flowers will be given, with prices of the bulbs, early in the autumn.

## CATALOGUE

OF

## GREEN-HOUSE PLANTS.

The collection of Green-house and Hot-house Plants is very extensive, and comprises not only all the popular and well known species and varieties, but all the new, rare, and showy kinds of recent introduction. No pains have been spared to enrich the assortment by importations from England and the Continent, or by the addition of new varieties of American origin; and arrangements have been made with foreign nurscrymen, by which every desirable plant will be added as speedily as possible.

For a more ready reference to some of the popular flowers, they are arranged under special classes.

#### Those marked thus (\*), are climbing plants.

## FERNS.

The Ferns are among the most ornamental foliaged plants, and are extensively cultivated in English collections, where their delicate very deep green verdure sets off the more conspicuous and showy flowering plants. They are easily grown, flourishing in shady places where other plants would not succeed, and when well cultivated, always commanding the greatest admiration. For Wardian cases, they are indispensible in every collection.

ADIANTUM capellus veneris \$1 00	SELAGINELLA (Lycopodium,) apoda, \$0.50

## SPECIAL COLLECTIONS.

## ACHIMENES.

The Achimenes are among the most beautiful plants for the decoration of the green-house or conservatory, during the summer, being of dwarf, compact, branching habit, and flowering abundantly throughout the whole season. Grown in masses in large pots or pans, they form superb objects for exhibition. Their culture is simple.

Baron de Pret. (Tydæa.) A new and beautiful free flowering variety, raised in Belgium	0
Belmontiensis. A fine hybrid, similar in habit to longiflora, with flowers three inches in diameter, deep rich violet tinted plum color, with a yellow blotch in the centre.	0
<b>Dentoniana.</b> A neat, slender branched kind, with 'medium sized dark green foliage, and a profusion of circular lobed, clear rosy lilac colored flowers, nearly two inches wide, relieved by a small white throat in the centre, sur- rounded with violet purple lines radiating into the centre of each flower lobe. 1.0	0
<b>Dr. Picoulene.</b> $(Tydea.)$ A richly spotted and superb variety 1.0	
Eckhautei. A neat, erect, sub-evergreen variety, growing two feet high, with dark foliage. The flowers are large, conspicuous, about an inch and a half across, vermilion scarlet, richly banded and spotted with crimson and yellow.	0
Leighii. A compact free blooming summer variety, medium sized habit, and light violet tinted purple blossoms, nearly two inches in diamater, pictur- esquely marked with a green margined, yellow, cloud-like spot in the centre, which is richly speckled with vermilion or crimson colored dots 1.0	0
Meteor. A neat branching plant, growing about eighteen inches high, with small dark green leaves, and numerous bright scarlet crimson flowers with a vellow eye, measuring an inch and a half in diameter 1.0	0
Rosea Magnifica. Large bright rose, with a minutely spotted yellow eye, very free bloomer	0
Amabilis. (Tydxa.) Delicate rose . \$0 50   Hirsuta. Scarlet spotted, \$0 25	5
Ambrose Verschaffelt. White, with Ignescens. Orange scarlet 25	
violet purple marks and streaks 25 Aurora, Light red with yellow eye,	
Aurora. Light red with yellow eye, . 25 Autumnalis. Carmine; winter bloomer 50 Longiflora. Bluish, large 25	
Beeckmania. Fine purple	
Beeckmania cærulea. Bluish purple. 25 Magnifica. (Tydæa.) Rich crimson 25	
Boothii. Violet	;
Boothii czerulea. Bluish violet 25 Patens major. Purple	;

#### AZALEAS.

#### AZALEA INDICA.

The Azalea is one of the showiest conservatory, green-house, or parlor plants, and from its simple cultivation and free flowering habit, is eminently adapted to the latter situation, where it opens its flowers as readily as in the green-house. With the improvements which have been made in the production of new varieties, it ranks among the most desirable plants for a collection.

## PELARGONIUMS.

Few plants have undergone a greater change than the Pelargonium. They are now considered among the most beautiful green-house plants; ensily grown, and presenting, in their varied as well as exquisite tints and pencillings, attractions which few other plants posses. Messrs. Beck, Hoyle, Foster, and other amateurs, have enriched our collections with varieties of surpassing beauty.

## BOUVARDIAS.

The Bouvardias are now ranked among the showlest of our bedding plants, rivalling the verbena in brilliancy, while their more stately habit and great profusion of blossons render them particularly or-namental and attractive. Planted out in May, they soon begin to bloom, and furnish a succession of biossoms till late in autumn.

Hogarth. A beautiful new hybrid of a scarlet, trumpet shaped flowers	obnst habit, with fine large trusses of
Laura. A beautiful new hybrid, with find trumpet shaped flowers, with large le	e trusses of pale pink or flesh colored, aves and a spreading habit
Oriana. A beautiful new hybrid, of free searlet salmon, trumpet shaped flower	habit, with trusses of large, bright s
Rosalinda. Another fine hybrid variety of large, bright salmon, trumpet shap	
Angustifolia. The most brilliant searlet, neat growth, and very fine \$0.25	Longiflora. With conspicuous clusters of pire white, very fragrant trumpet shaped

Major Domo. Puce, shaded with purple	Tyrian Prince. Rich bright blue, 50
and white,	

Choice selections, \$4 00, \$5 00, and \$6 00 per dozen.

## FUCHSIAS.

The newer Fuchsias are very great improvements upon the older ones. In substance, color, form and culture, they seem to leave but little to be gained. The following are some of the newest and best.

#### NEW VARIETIES.

Guiding Star. White, blush tinted tube; sepals broad, white, gracefully re- curved; corolla cup shaped, even, of a rich violet-purple red color; of a free branching habit, and fine growth.	\$1.00
Prince Frederick William of Prussia. Tube stout, medium length, bright carmine red; scpals broad, of an equally bright color, elegantly re- curved; corolla a wide cup of open bell-shaped outline, opening blue, and changing to a purple plum color. A noble flower.	1.00
Rose of Castile. Tube warm blush white, picturesquely marked with rosy colored lines; sepals blush tinted white, of great substance; corolla large and conspicuous, bell shaped.	1.00
Massaniello. Large, broad, bright crimson scpals, half reflexed, showing a splendid, wide, and clegantly formed violet tinted corolla	1.00
Kitty Tyrrel. Finc, large, long, bright scarlet sepals, with oval oblong vio- let corolla, on long, drooping racennes. Finc for exhibition.	1.00
Loch Katrine. Sepals intensely rich bright coral red, broad, and well re- eurved; corolla very deep violet, almost black, cup-shaped, regular and fine.	1.00

## PERPETUAL, OR TREE CARNATIONS.

The introduction of this class of Carnations has added an invaluable feature to our winter blooming plants for the drawing room or green-house. Their delicately rich and grateful odor, always so refreshing in connection with their brilliant and varied colored flowers, will secure for them a place in every collection, and in fact render them indispensable wherever beautiful plants are esteemed.

## CATALOGUE of

## HARDY HERBACEOUS FLOWERING PLANTS.

Perennial herbaceous flowering plants are the most valuable of all border flowers; they are not only perfectly hardy, but are of the easiest cultivation, increasing readily, and give a succession of bloom from April to November. Those marked thus (\*), are climbers.

Twenty-five beautiful Perennials of our selection, \$5.00.

Twelve fine Perennials of our selection, \$3.00. Twelve showy Perennials of our selection, \$2.00.

## CARNATIONS.

The Carnation is one of the most brilliant and showy flowers. Easily cultivated and quite hardy, (if properly protected.) no garden can be complete without a smaller or larger collection. From the generally received notion that it requires extra care and attention, it has been mijustly neglected; and we cannot but hope it will receive that attention which its great merits demand. Our collection will be yearly augmented by new kinds from England, and by our own seedlings.

Ajax. (Hovey's.) Dark scarlet self.	King of Carnations. Crimson bizarre.
Anne Marie. (Hovey's.) Rose flake.	King of Scarlets. Scarlet flake.

Twelve fine varietics of our selection. \$4.00.

#### PICOTEES-HERBACEOUS PÆONIES.

## PICÓTEES.

The Picotee is scarcely less beautiful than the Carnation; with many it is a greater favorite. It is of the easiest cultivation,—quite hardy,—and produces a profusion of delicately edged and tinted blossoms.

Picotees are divided into four classes, viz :--Purple Edged, Red Edged, and Scarlet Edged, all with white grounds ; and Yellow ground with Purple Edge. Among the following are several seedlings unsurpassid by any of the English varieties.

Amy Robsart. Rose edged. Aricl. Scarlet edged. Beauty. (Hovey's.) Red edged. Beauty of Cambridge. (Hovey's.) Yellow ground, red edged. Captivation. Rose edged. Canary. Yellow ground. Caroline Louisa. (Hovey's.) Red edge. Champion. Yellow ground. Chieftain (Hovey's.) Red edged. Elegante. Red edged. Eliza. Red edged. Esther. Purple edged. Eva. (Hovey's.) Red edged. Evening Star. (Hovey's.) Red edged. Exquisite. (Hovey's.) Purple edged. Finis. Purple edged. Ganymede. Purple edged. Gem. (Hovey's.) Red edged. General Taylor. Yellow, red edged. Governor. (Hovey's.) Red edged. Helen. Scarlet edged. Heroine (Youell's.) Scarlet edged. Jeanette. Red edged.

Jenny Lind. (Hovey's.) Red edged. Joan of Arc. Red edged. Lady Alice Peel. Purple edged. Lady Grenville. Rose edged. Lord Bridgport. Purple edged. Meteor. Purple edge. Mont Blanc. White. Mrs. Dodwell. Rose and scarlet edged. Mrs. Drake. Heavy scarlet edge. Mrs. Hovey. (Hovey's.) Pure white. Mrs. Howell. (Hovey's.) Purple edged. Mrs. Lochner. Rose edged. Mrs. May. Purple edged. Mrs. Pitman. Rose edged. Ophelia. (May's.) Purple edged. Orient Orb. Yellow, red edged. President. (Hovey's.) Prince Albert. Very dark. Prince Arthur. Purple edged. Prince of Orange. Yellow ground. Princess Royal. Red edged. Queen Victoria. Purple edged. Suurise. Yellow, red edged. Sunset. (Hovey's.) Yellow, red edged.

Twelve superb varieties of our selection, \$5.00. Twelve fine varieties of our selection, \$4.00.

## HERBACEOUS PÆONIES.

Few hardy flowering plants have been more popular or admired objects in the garden, than the Chinese Pæonies. Easily cultivated,—flourishing in all situations,—they have become indispensable ornaments to every collection. With the introduction of new varieties, their attractions have been greatly increased. All the varieties are double unless otherwise noted.

Parodoxica sauguina plena 100	Witmaniana. Single yellow 300

Twelve fine varieties of our selection, \$6.00.

#### PHLOXES.

The great improvement that has been made in the production of new varieties of the Phlox, has generally enhanced their value, and rapidly increased the taste for this fine hardy perennial, so that a collection cannot be considered complete without a number of the best varieties. The following list not only embraces all the newest and most celebrated sorts raised by M. M. Lierval and Fontaine on France, but many other Continental and English varieties, as well as several of our own seedlings of very great beauty. " GOOH

Selections \$2 00, \$3 00, \$4 00 and \$6 00, per dozen.

1117

## AURICULAS.

Beautiful plants extensively cultivated by the English florists, nearly hardy, only requiring the protection of a frame in winter.

Several varieties 25 cents each, or \$2 00 per dozen.

#### CLOVE PINKS\_ROSES

## CLOVE PINKS, GERMAN PICOTEES, &C.

The Pink sports into a variety of colors, many of them exceedingly beautiful, which cannot be classed with the Picotecs or Carnations; some of them being *selfs*, or of one color; some *bizarres*, or of various colors, striped and mottled; while others are edged, and fringed at the edges. We have a great collection of seedlings, many of them very dissimilar, which posseses great beauty.

Several varieties 25 cents each, or \$2 00 per dozen.

# THE FRUITS OF AMERICA,

A SPLENDID WORK, CONTAINING FINELY COLORED PLATES OF ALL THE CHOICEST FRUITS IN THE UNITED STATES,

WITH

#### COMPLETE DESCRIPTIONS OF EACH VARIETY, THEIR CULTIVATION, &C.

## BY C. M. HOVEY,

EDITOR OF THE "MAGAZINE OF HORTICULTURE."

To render the Fruit cultivator familiar with all the finest fruits cultivated in the United States, is the object of this work. Each volume contains FORTY-EIGHT superbly colored plates of the choicest Apples, Pears, Peaches, Cherries, Plums, and Strawberries, with accurate descriptions of each, and all the information in regard to their synonyms, origin, growth, &c. None but the very best fruits will find a place in the volume. Every fruit is drawn from nature, expressly for this work. The work is published in numbers of four plates each, and twelve numbers complete a volume. Two volumes, containing NINETY-SIX plates, have already been completed, and Nos. 1 and 2 of the third volume published.

The work is of royal octavo size, and forms two large and splendid volumes, elegantly bound in Turkey gilt, at \$15 each? Vol. 3, in numbers, \$1 each.
