Welcome to the 2023 Virginia Nursery & Landscape Association's Grower's Guide!

This guide is your resource for finding Virginia growers and the quality plants they grow and sell.

Each grower featured in this guide is a member of the Virginia Nursery & Landscape Association and supports its mission is to enhance, promote and advocate for Virginia's nursery and landscape professionals.

Our members include growers, retail garden centers, nurseries, landscape professionals and individuals who hold a Virginia Certified Horticulturist credential. All are known for supporting the overall green industry and communities they serve through educating consumers on plant care, helping local organizations with beautification programs and supporting the next professional generation through nurturing youth's interest in the industry.

This guide was created to provide you with the best and most complete information so you can find exactly what you need and purchase it with confidence.

The layout of the Guide is similar to previous year's. All plants are listed in alphabetical order by genus, species and varieties. Growers that have each variety available are listed under each plant with their firm name and phone number. Their full address is listed in the beginning of this Guide (page 4).

Table of Contents

Listed below are some of the categories of plant materials that are included in this guide under their scientific name.

NOT a Watering Bag!
Recharge with Rain, Snow & Irrigation!
Make Use of Water That is Otherwise Wasted!

Charging/Releasing by Osmosis!
Solves BOTH under- and over-watering issues!
Not only releases water when soil is too dry,
But also absorbs water when soil is too wet!

Field Proven in Virginia Since 2013!

TreeDiaper®

& SteadySpring®

540-300-1465
www.treed diaper.com
info@treediaper.com

NOT a Watering Bag!
Recharge with Rain, Snow & Irrigation!
Make Use of Water That is Otherwise Wasted!

Charging/Releasing by Osmosis!
Solves BOTH under- and over-watering issues!
Not only releases water when soil is too dry,
But also absorbs water when soil is too wet!

Field Proven in Virginia Since 2013!

Quality natives. Crafted by hand.

At White House Natives, we pride ourselves in being dedicated stewards of the land—not just a tree grower. As a grower solely invested in natives, we are nimble; focusing all our efforts into creating an exceptional end product by being hands-on at every phase.

We invite you to visit our 60-acre operation in the heart of the Shenandoah Valley where we grow over fifty species in sizes from 1½" to 3" caliper.

Come see the difference that time, care, and dedication makes in producing a superior native that can be a star in your landscape plan.

You'll be glad you made the trip.

BE SURE TO LET THE
GROWERS AND ADVERTISERS
IN THIS GUIDE KNOW
HOW YOU FOUND THEM!

Quality natives. Crafted by hand.

At White House Natives, we pride ourselves in being dedicated stewards of the land—not just a tree grower. As a grower solely invested in natives, we are nimble; focusing all our efforts into creating an exceptional end product by being hands-on at every phase.

We invite you to visit our 60-acre operation in the heart of the Shenandoah Valley where we grow over fifty species in sizes from 1½" to 3" caliper.

Come see the difference that time, care, and dedication makes in producing a superior native that can be a star in your landscape plan.

You'll be glad you made the trip.
