Authors. Submit manuscripts electronically via Manuscript Central on the internet at <http://mc.manuscriptcentral.com/mpmi>. See the "Author Instructions" link on the bottom left at <http://apsjournals.apsnet.org/loi/mpmi>. **Charges.** Manuscripts accepted for publication in *MPMI* will be charged a \$150 processing fee for manuscripts of up to six published pages. A \$150 charge will apply to each additional page or fraction thereof. Color charges are \$500 for the first illustration, \$500 for the second, and \$250 for the third and each subsequent color illustration in one article. In addition, there is a \$20 fee charged for each black and white figure or line drawing. Fees are subject to change without notice. For reprints, a price sheet will be provided with galley proofs. Authors will be billed after the article is printed. Authors or institutions have the opportunity to purchase immediate open access to *MPMI* articles for a fee of \$2,400. Single articles with open access are clearly marked in the journal tables of contents.

Online article enhancements. *MPMI* offers cost-effective "e-Xtra" options to enhance the usefulness to readers of the online version of articles. Authors may publish figures in color online that appear as black and white in print (\$20 each). Up to five external links from the online abstract to public databases, such as GenBank or other approved websites, will be provided free of charge (additional links at \$5 each). Authors should submit links with the article for review. **Supplemental materials** (e.g., added tables or figures) not in the print version may be published online (\$20 each). They are subject to review. Submit them in MS Word, WordPerfect, Excel, Lotus 1-2-3, or .jpg or .tif formats. Go to the "Author Instructions" link on the bottom left at <http://apsjournals.apsnet.org/loi/mpmi> or to "Information for Contributors" in *MPMI* for updates.

Use of material. *Molecular Plant-Microbe Interactions* is copyrighted. Anyone wishing to use data or illustrations appearing in this journal in another publication must obtain permission from the author(s) and The American Phytopathological Society and provide a line crediting *Molecular Plant-Microbe Interactions* as the source.
