The “machine is broken”
narrative:

Goal displacement
False precision
Simply not a good measure

Altmetrics

Funders believe they have
been flying blind

So, what do funders want?

- More granular and accurate data
- Broader access to research results
- Process improvements
- Big data

More granular/accurate data

- Who did the research (authors and co-authors)?

- What did they do?

- Which institution are they from?

- Who funded the research?

Contents: These submissions have been transferred from another publication. Please Use the "Edit Submission" link to verify that all required information has been entered and build the PDF, or send the submission back to the Author to do so. After the PDF is built and approved, the submission will remain in this folder so that you may make any additional edits, send it back to the author for approval or hold it here pending other communications. When the submission is ready for the usual workflow, use the "Transfer Complete" action link in this folder to move the submission into the normal Editorial workflow as a new submission. Use the up/down arrows to change the sort order.
