

378032 to 378041—Continued

378034. M462. 'Madhira'.
 378035. M463. '305'.
 378036. M464. 'Kheda 10'. Maharashtra State.
 378037. M465. 'ML 2'. Punjab Agricultural University, Ludhiana.
 378038. M466. 'ML 5'. Punjab Agricultural University, Ludhiana.
 378039. M467. 'ML 6'. Punjab Agricultural University, Ludhiana.
 378040. M468. 'ML 8'. Punjab Agricultural University, Ludhiana.
 378041. M469. 'ML 10'. Punjab Agricultural University, Ludhiana.

378042 to 378044.

From Kenya. Seed presented by Kenya Seed Company, Kitale, through S. W. Braverman, East African Community Quarantine Station, Nairobi. Received February 15, 1973.

378042 and 378043. CHLORIS GAYANA Kunth Gramineae. Rhodgrass.

378042. 'Mbarara'. Introduced in 1953 from Southwest Uganda. High germination, strong seedling vigor. Plants relatively short maturing, quick recovery growth, herbage quality good. Tends to become stemmy and leaf growth not impressive. Best in rainfall areas above 850 mm.

378043. 'Pokot'. Introduced in 1963 from West Pokot District near Kerio Valley. Very stoloniferous, rapid spreader, growth to 100 cm. tall under fertile conditions. Stems coarse but heavy leaf growth. Impressive herbage production and good drought resistance. Late maturity, growth range up to 2,280 m.

378044. SETARIA SPHACELATA (Schum.) Stapf & Hubb. ex Moss Gramineae.

'Nandi'. Short tufted perennial, nonspreading, but many plants provide thick sward. Leaves grow to 50 cm. before coarse stems appear. Seed heads long and cylindrical. Resistance to frost and water logging makes good substitute for rhodesgrass. Herbage quality good under fertile conditions. Tolerates wide range of environment. Can be grown from 1,500 to 2,900 m. with 850 mm. rainfall.

378045 to 378056.

From France. Seed presented July 1971 to National Plant Materials Center, Beltsville, Maryland by Institut National de la Recherche Agronomique, Versailles. Received March 5, 1973.

378045. BRIZA MINOR L. Gramineae. **Little quaking grass.**

BN-20532. Collected on sandy land in the wild. Annual bunchgrass.

378046. BROMUS sp. Gramineae.

BN-20553. Annual bunchgrass. Originally from Southern Argentina.

378047. CATAPODIUM PATENS (Brot.) Rothmaler & P. Silva Gramineae.

BN-20580. Annual bunchgrass. Originally from Portugal.

378048. CATAPODIUM RIGIDUM (L.) C. E. Hubbard

BN-20581. Collected on limestone soil in the wild. Annual bunchgrass.

378049. DEYEUXIA AVENOIDES (Hook. f.) J. Buch. Gramineae.

BN-20604. Collected in the wild. Annual bunchgrass. Originally from New Zealand.

378050. ELYMUS AGROPYROIDES Presl Gramineae.

BN-20608. Bunchgrass. Originally from Chile.
