CONTAINER GARDEN IN A BAG

PRICE: \$45 | Sometimes the hardest part of gardening can be choosing a design, but we've taken care of that for you! Our horticulturists have created a grab-and-go collection of plants specifically selected to create a stunning container display. Below, you'll find the color palette and light requirement of this year's collection. Specific plants in the collection will be finalized closer to the sale, based on current availability. The collection will include planting and care instructions.

THE PUNCH BOWL

Few things scream summer like a glass of sangria, and this design, with its fiery reds and citrusy yellows, feels as bright and refreshing as the fruited drink. At the center rises a heat-loving canna with blood-orange blossoms and leaves so dark they could have been steeped in red wine. Encircling the canna is a fruity concoction of apple-red globe amaranth, mango-colored celosia and a striped gazania reminiscent of sliced oranges. Like the tasty refresher, this design says cheers to summer – and, if you aren't careful, you might just reach for a punch bowl to plant it in.

Full Sun

Pollinators

Color Palette

FRUITS, BERRIES & VEGETABLES

PRICE RANGE: \$2-\$130 | Whether it's on several acres in the country or the sunny corner of an apartment balcony, growing a portion of your own food is rewarding and delicious. The sale will feature a wide variety of seedlings, fruit trees, berry bushes and seeds perfect for culinary gardeners of every skill level.
