CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

September 1966

This Gazetteer is issued as a standard component of the National Intelligence Survey for Antarctica and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

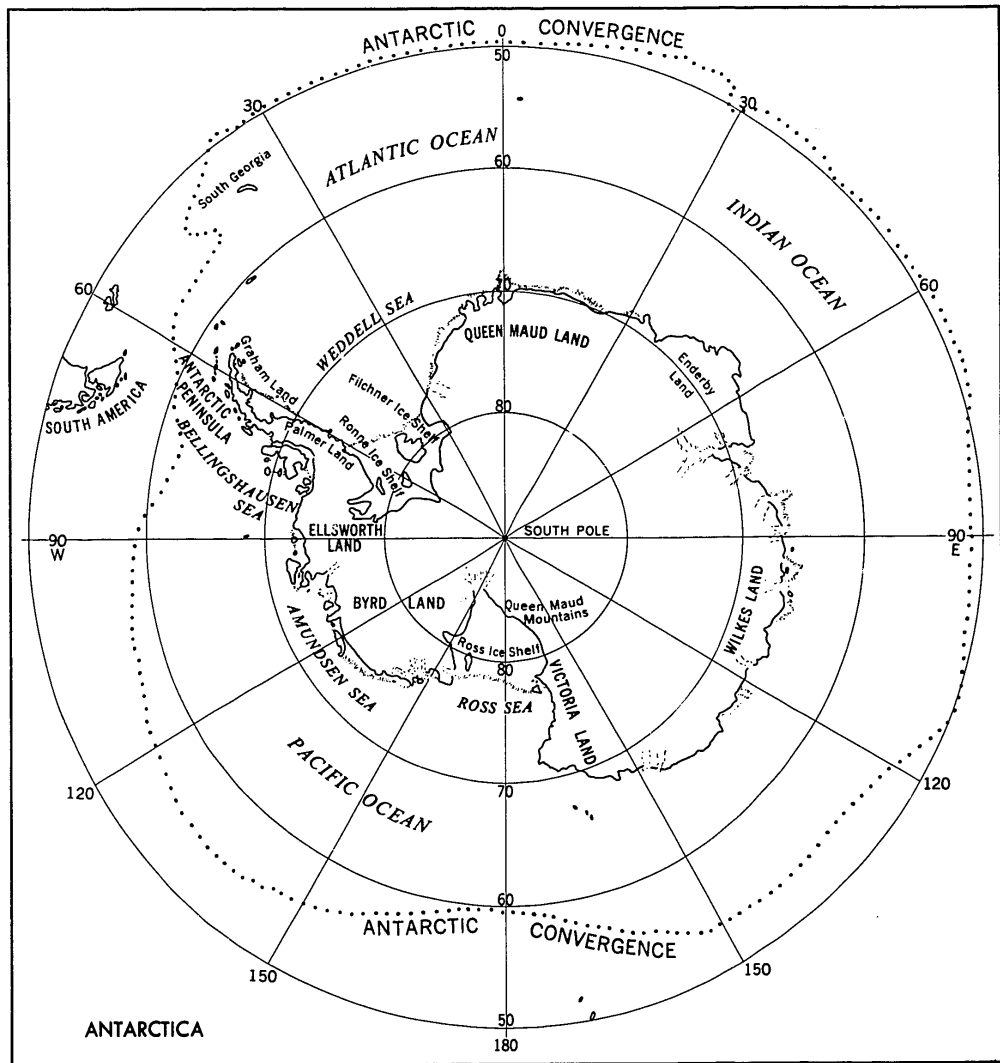

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

NIS GAZETTEER

Antarctica

Official Standard Names Approved by the
U.S. Board on Geographic Names

Prepared in the Office of Geography, Department of the Interior
Coordinated by the Central Intelligence Agency
Washington, D.C. September 1966

FOREWORD

This gazetteer contains name decisions of the Board on Geographic Names, concurred in by the Secretary of the Interior, for features in Antarctica and the area northward to the Antarctic Convergence. Off-lying islands within this geographic region are the South Shetland Islands, the South Orkney Islands, the South Sandwich Islands, South Georgia, Bouvet Island, the Balleny Islands and Heard Island. The names listed as approved supersede those in all other previous Board gazetteers or supplementary lists for the area.

All of the decisions on Antarctic names have been approved upon the recommendation of the Board's Advisory Committee on Antarctic Names. Members of the Committee are Kenneth J. Bertrand of Catholic University of America (Chairman), Albert P. Crary of the Office of Antarctic Programs, National Science Foundation, Henry M. Dater of the History and Research Division, U.S. Naval Support Force, Antarctica, and Herman R. Friis of the National Archives. Meredith F. Burrill, Director of the Office of Geography, Department of the Interior, is a member ex officio. Fred C. Alberts of the Office of Geography staff serves the Committee as regional geographer and secretary.

Entries in the gazetteer include 8,500 name decisions and 3,000 unapproved variant names, the latter cross-referenced to the decision names. *Users of the gazetteer should always refer to main entries for approved names.*

The gazetteer is the most comprehensive listing of Antarctic names to date. It includes all of the important feature names and nearly all others for which adequate information is available. A considerable effort has been made to arrive at international agreement on these names, with notable success.

The basic name coverage corresponds to that of maps at the scale of 1:250,000 for areas along the coast and exposed groups of mountains, and 1:5,000,000 for the nearly featureless interior ice plateau. Except for a few whaling stations, all entries are for mountains, peaks, glaciers, peninsulas, capes, bays, islands or other physical features.

Interpretation of entries

Name.—Approved names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the approved names by use of the word "see." The names are arranged alphabetically. Those containing generic or other elements preceding the specific term are transposed and alphabetized by the specific part; thus Mount Siple is listed as Siple, Mount.

The various diacritical marks used in Antarctic names reflect the multi-national origin of the nomenclature. They include the acute accent (´), the grave accent (`), the dieresis (¨) and the circumflex accent (^), all of which occur over vowels. Others are the cedilla (¸) which is written under the letter c, the bolle (ˆ) written over the letter a, the tilde (~) written over the letter n, the slash (/) (ø), and the apostrophe (') indicating contraction in names of French origin and representing the soft sign (ь) in transliterations of Russian names. The æ digraph should be so written whenever possible, or in special situations as æe, but never as two separate letters. The diacritical marks and digraph are to be used whether the names are written in capital or lowercase letters.

The first letter of all separate words except noninitial articles, prepositions and conjunctions should be capitalized.

Designation.—The second column contains designations. These may coincide with the generic term of the approved name or provide a more definitive description of the feature.

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with the longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the summit of mountains and hills, at the extremities of capes and points, at the mouths or lower ends of glaciers and meltwater streams, and near the center or midpoint of other features.

Map references

Most of the names found in this gazetteer may be located by the approved name or a recognizable variant on one or more of the maps, charts or series listed below and indexed on the map immediately following this foreword.

List of maps.—Maps and charts have been grouped according to the country in which they were published.

United States

1. U.S. Geological Survey, Washington, D.C.
 - A. 1:250,000 *Antarctica Reconnaissance Series*, 1960-66.
 - B. 1:500,000 *Northern Victoria Land, Antarctica, Sketch Map*, 1963.
 - C. 1:500,000 *Byrd Land, Antarctica, Sketch Map*, 1966.
2. American Geographical Society, *Antarctica*, scale 1:5,000,000, New York, 1965. Complete coverage in 1 sheet.
3. Navy hydrographic charts, U.S. Naval Oceanographic Office, Suitland, Maryland. Complete coverage of coastal Antarctica; various dates and scales.

United Kingdom

4. Directorate of Overseas Surveys, *British Antarctic Territory* (maps from 1954-1963 titled *Falkland Islands Dependencies Survey*), 1:200,000, Surbiton, Surrey, England, 1954-64.
5. British hydrographic charts, Hydrographic Department, Admiralty, London. Complete coverage of coastal Antarctica; various dates and scales.

New Zealand

6. Department of Lands and Survey, *Ross Dependency*, 1:250,000, Wellington, 1961-65.

Australia

7. Division of National Mapping, Department of National Development, Canberra.
 - A. 1:500,000 *Australian Antarctic Territory*, 1959-62.
 - B. 1:250,000 *Australian Antarctic Territory*, 1962-64.

Union of Soviet Socialist Republics

8. Ministerstvo Morskogo Flota SSSR (Ministry of Merchant Fleet of the U.S.S.R.), Moscow.
 - A. 1:3,000,000 *Karta Antarktidi*; full coverage of Antarctica in 9 sheets, 1961.
 - B. 1:1,000,000 *Antarktida*, 1959.
 - C. 1:200,000 *Antarktida*, 1962-63.

Norway

9. Norsk Polarinstitut, Oslo.
 - A. 1:250,000 *Dronning Maud Land*, 1961-66.
 - B. 1:1,000,000 *Dronning Maud Land*, 1962.
10. H. E. Hansen, *Atlas of Parts of the Antarctic Coastal Lands*, 1:250,000, Oslo, 1946.

France

11. Expéditions Polaires Françaises, *Carte de la Terre Adélie au 1:100,000*, Institut Géographique National, Paris, 1954.

Argentina

12. Argentine hydrographic charts, Servicio de Hidrografía Naval del Ministerio de Marina, Buenos Aires. Coverage of coastal areas between 25°W. and 74°W.; various dates and scales.

Chile

13. Chilean hydrographic charts, Departamento de Navegación e Hidrografía, Valparaiso. Coverage of coastal areas between 53°W. and 90°W.; various dates and scales.

Locations of map materials.—The above and other materials may be obtained from the publisher, or may be borrowed in some cases from holding organizations whose addresses are given below:

Other gazetteers

The following gazetteers are useful as finding lists, provide information on the history of individual names, or include Antarctic name policies. The names in them, however, are not necessarily those approved by the Board.

U.S. Board on Geographic Names, Gazetteer No. 14, *Geographic Names of Antarctica*, Washington, D.C., 1956.

[United Kingdom] Antarctic Place-names Committee, *Gazetteer of the British Antarctic Territory, South Georgia and the South Sandwich Islands*, London, 1962.

Australian National Antarctic Research Expeditions, ANARE Interim Reports, Pub. No. 75, *Gazetteer of the Australian Antarctic Territory*, Melbourne, 1965.

New Zealand Geographic Board, *Provisional Gazetteer of the Ross Dependency*, Wellington, 1958; also First Supplement (1960), Second Supplement (1963), Third Supplement (1963) and Fourth Supplement (1965).

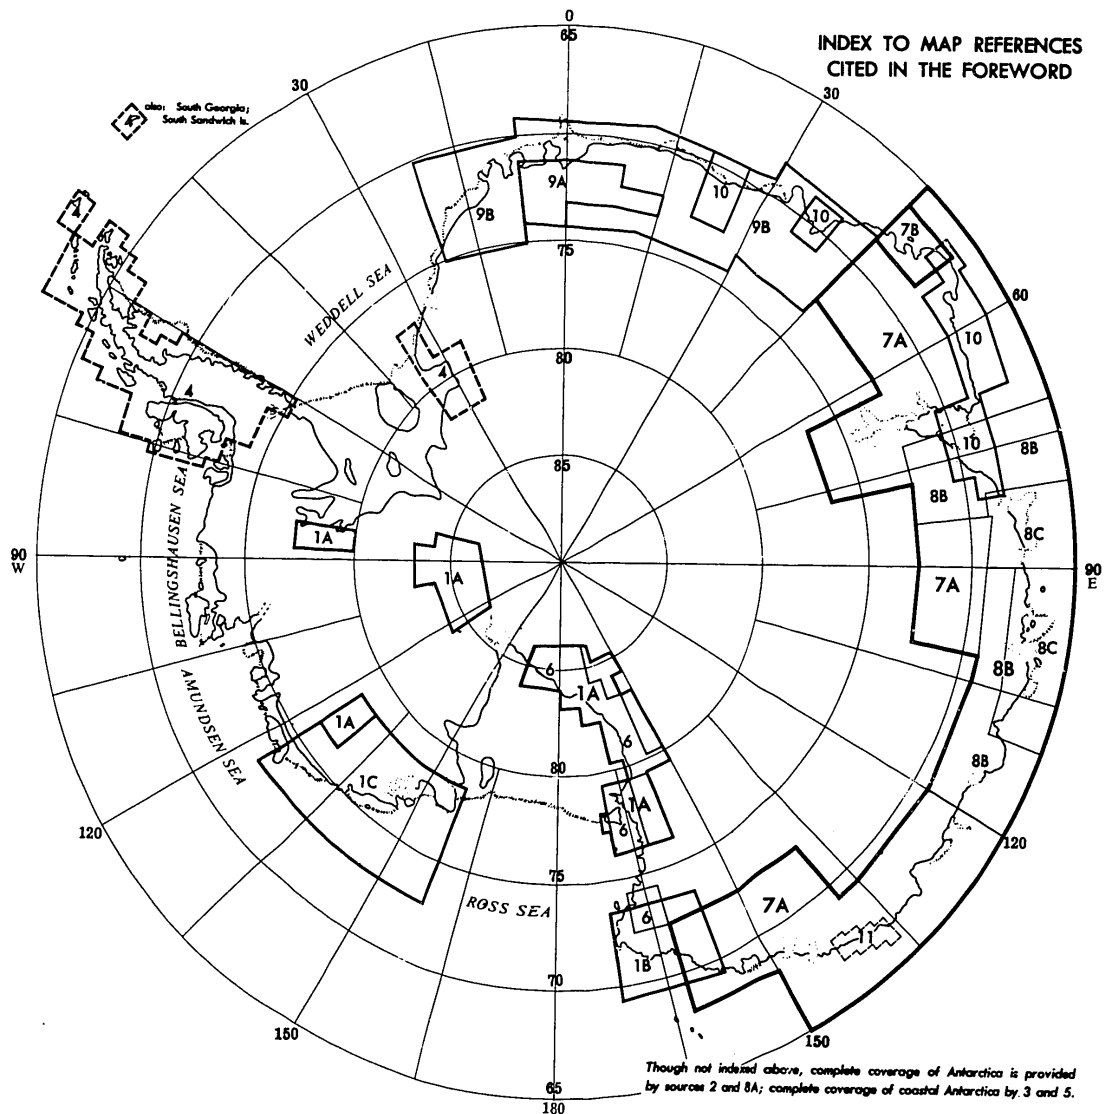

Sovetskaya Antarkticheskaya Ekspeditsiya, 1955-58, *Perechen' Geograficheskikh Nazvaniy Vostochnoy Antarktity* (List of Geographical Names of the Eastern Antarctic), Morskoy Transport, Leningrad, 1959.

Expéditions Polaires Françaises, *Toponymie de la Terre Adélie*, Paris, 1959.

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Department of the Interior, Washington, D.C. 20240. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
