2011
The Game
Changer-
Boxwood Blight

What is Boxwood Blight?

- Fungus: *Cylindrocladium buxicola*
- Sticky, heavy spores
- Movement: water, plant to plant, debris, human/equipment
- Optimal conditions: warm and wet, 60-77 deg F
- Sensitive to heat/cold
- Pathogen can live in ground, perhaps for 5 years or more
- Spreads with water splashing

Primary
Considerations
for NewGen[®]
Family

- Good Blight Resistance with Proper Care
- Good Boxwood Leafminer Resistance
- WOW Factor
- Grower and Garden Friendliness

NEW
GENTM
BOXWOOD

The Boxwood Revolution

NewGen
Freedom®

NewGen Freedom®

- 3.5' T x 3.5' W (15 years) 5' T x 5' W (25 years)
- Fast grower: 3-6" per year
- Sun, Part sun, Shade
- Zone 5-8
- Medium green foliage, large glossy leaves

NewGen
Independence®

NewGen Independence®

- Great for formal gardens
- Classic boxwood look
- Handles snow load well
- Excellent substitute for 'Suffruticosa' or 'English'
- 'Green Beauty' growing habit, with better Leafminer resistance

The Successful Future of Boxwood

- Better Boxwood cultivars
- **Best Management Practices
(or proper care)**

How to Reduce the Chance/ Severity of Blight

Reduce the Chance/ Severity of Blight

1. Carefully
remove
blighted plants

Reduce the Chance/ Severity of Blight

2. Avoid/
Replace
'English
Boxwood'

Reduce the Chance/ Severity of Blight

3. Use
reputable
boxwood
suppliers/
contractors

Reduce the Chance/ Severity of Blight

4. Encourage
Air Flow- the
“Pearl
Necklace” look

Reduce the Chance/ Severity of Blight

5. Mulch

Reduce the Chance/ Severity of Blight

6. Consider
spraying if
resources are
available

Reduce the Chance/ Severity of Blight

7. Avoid tight
pruning.

**Reduce the
Chance/
Severity of
Blight**

7. Sanitation

Reduce the Chance/ Severity of Blight

8. Replant
with more
tolerant
cultivars

BOXWOOD BOOTCAMP

at Saunders Brothers Inc. in Piney River, VA

Join us for a deep dive into all things boxwood, with an emphasis on cultural practices for success! Day-long program is designed for landscape and garden retail professionals as well as serious boxwood enthusiasts.

- Behind-the-scenes tour of field and container production of top-quality boxwood
- Educational stations featuring cultivar selection, planting and maintenance tips, pruning, pest and disease diagnosis and management
- Lunch and closing social + dinner BBQ, Beer, Bluegrass, and Boxwood

Registration opens Feb 1, \$250 per person.

Attendance is limited for the best experience.

Net proceeds help fund the American Boxwood Society!

THANKS!
