[Empowering women in the EU and beyond: Labour market](#)

Вид публикация Briefing

Дата 02-03-2017

Автор SABBATI Giulio | SHREEVES Rosamund

Област на политиките Въпроси на равенството между половете, равенство и многообразие | Заестост

Резюме Equal access to the labour market is recognised as a cornerstone of women's economic independence and participation in public life. The EU and its Member States have obligations to integrate those excluded from the labour market (Article 151 TFEU), advance gender equality in employment (Article 153 TFEU; Directive 2006/54/ EC), and ensure equal pay for work of equal value (Article 157 TFEU). All EU Member States have ratified the 1979 UN Convention on the Elimination of all forms of Discrimination against Women, which upholds women's rights to work, equal opportunities and social benefits (Article 11).

[Scrutiny on Horizon 2020 Focusing on the European Parliament's Priorities](#)

Вид публикация Задълбочен анализ

Дата 15-02-2016

Външен автор Pinar TEMEL (rdyn Consultants), Pernilla SJÖGREN (akdene Hollins), Edward SIMS (akdene Hollins) and Sandra MEGE (rdyn Consultants)

Област на политиките Изследователска политика | Прогнозно планиране

Резюме This in-depth analysis provided by Policy Department A at the request of the ITRE committee, focuses on the European Parliament's key priorities for the Horizon 2020 programme. It assesses the extent to which the EP's key priorities have been implemented in the programme. It identifies measures, programmes and policy actions addressing these priorities, as well as bottlenecks in the implementation processes. It provides policy recommendations to improve the implementation of existing measures.

[Encouraging Stem Studies for the Labour Market](#)

Вид публикация Накратко

Дата 22-09-2015

Автор KRAATZ Susanne

Област на политиките Заестост | Изследователска политика | Промишленост | Социална политика

Резюме The study on Encouraging STEM Studies for the Labour Market, prepared by Policy Department A at the request of the Committee on Employment and Social Affairs, provides an up-to-date overview of the labour market situation in STEM occupations and analyses European as well as national approaches to encourage STEM uptake in relation to these labour market needs. The aim is to identify practices which help to increase the supply of STEM skilled labour. This leaflet presents the key findings of the study.

Резюме There is evidence of skills shortages in STEM fields in spite of high unemployment rates in many Member States. This document, prepared by Policy Department A at the request of the Employment and Social Affairs Committee intends to provide an up-to-date overview of the labour market situation in STEM occupations and to analyse European and national approaches to encourage STEM uptake in relation to these labour market needs. The aim is to identify practices which help to increase the supply of STEM skilled labour.

Област на политиките Изследователска политика

Резюме The study shows that while Europe has a strong science and research base the European research sector does not currently represent an attractive enough proposition for top researchers. To effectively address this problem, policies must be developed that specifically focus on the quality of the research environment while also creating the conditions that can best promote and reward scientific excellence. Opportunities exist at the EU level to positively address these issues, primarily in the context of targeted actions in relation to smart specialisation initiatives and specific actions in the framework of cohesion policy. There is a clear need also to strengthen the ERC and to streamline international cooperation with third countries in relation, for instance, to the Horizon 2020 initiative.
