Organization Codes

The organization code is four digits. The first digit identifies the major function below division level. The second digit identifies the branch (or equivalent) within a function. The third and fourth digits identify the group (or equivalent) within a branch.

Code 00 will not be used to identify a group. Code 00 is used only in branches that do not contain groups. Groups that have both revenue agents and tax auditors are assigned a separate group code for each. Organization Code 5000-5999 identifies the Service Center Examination Program.

Function (first digit) Code

1	Revenue Agent
2	Tax Auditor
5	Examination Branch - Service Center

Position Codes

The position code corresponds with the employee's formal assignment, regardless of the nature of duties performed.

The first digit identifies the major position category. Code 1 identifies revenue agents, Code 2 identifies tax auditors, and Code 3 identifies accounting aides. The remaining two digits identify specific technical positions.

Activity Codes 021 through 598 identify direct examination time. These three digit codes entered in Column (f) of Form 4502 indicate the type and class of returns examined and must be followed by an additional three digit code to identify examination program monitoring, category and special feature. Thus, all direct examination time must be reported with a six digit code on Form 4502. Activity Codes 600 through 999 identify all nonexamination time on Form 4502.
