The following special rules apply for telehealth-only providers:

- Telehealth-only providers must include a physical location (service location) on their enrollment profile, but the address does **not** have to be in the state of Indiana. All telehealth-only providers will be treated as in-state providers for prior authorization purposes.
- Billing enrollments must maintain active licensure in both Indiana and in the state in which their service location resides.
- Group enrollments must require all rendering providers attached to the group to maintain at least one Indiana license. Rendering providers *do not* need to maintain licensure that matches the group's service location.
- Rendering providers may be associated with both a telehealth-only enrollment as well as a standard IHCP group enrollment.
- Providers that have a physical location for patients to be seen *should not* enroll as telehealth-only providers.
