

# **Oxford International Intellectual Property Moot 2018**

---

## **Corrections & clarifications**

1. Mr Arbus never produced a written script, storyboard or choreographic notation for the Cockatoo Performance.
2. Clickers are devices used in the training of animals. They are operated manually by the trainer and make a distinct noise that can be heard by, *inter alia*, humans and Erewhonian cockatoos.
3. In paragraph 20, substitute the words “joint author” or “joint authors” where the words “co-author” or “co-authors” appear.
4. Treaties are not directly enforceable in Erewhonian law.
5. Teams should follow precisely the instructions regarding the grounds of appeal, as set out on page 1 of the instructions.
