Mosquito Abatement District

We love the long days of summer. Unfortunately, there's one thing guaranteed to ruin your perfect barbeque, camping trip, or baseball game – mosquitoes! Mosquitoes love summer as much as we do. There are a number of things that you can do to prevent and protect yourself and your family from mosquitoes and West Nile Virus.

The Weber Mosquito Abatement District (Weber MAD) recommends watching for these trouble spots where water can collect: birdbaths and fountains, rain gutters and downspouts, plant saucers, old tires, buckets, over-watered lawns and gardens, pet dishes and horse troughs.

If you are outside in the evening or early morning, during peak mosquito biting times, take measures to protect yourself from mosquito bites. Wear long pants and long sleeve shirts and apply a mosquito repellent approved by the Environmental Protection Agency. Repellents containing the active ingredients DEET, Picaridin, or lemon/eucalyptus oils are acceptable. Read and follow label directions carefully for application and, when necessary, to reapply.

The Weber MAD also wants to know the location of beehives to avoid spraying in these sensitive areas and they need your help in locating these hives. There are also other services they offer to the public, just call and ask. And, especially, when experiencing mosquito problems around your home call them at 801-392-1630 or visit their website www.webermosquito.com for help and information – that's their job.

Storm Water and Garbage Fees

In order to comply with the Federal Clean Water Act, the City will be reviewing the monthly storm water fees for possible increase. Garbage fees are also being reviewed to account for CPI inflation and to pass on the county increase of the tipping fees. Inquiries please contact the City Office.

PLANNING COMMISSION

TUESDAY, MAY 15, 2018 – 7:00 P.M.

1. Call to order/minutes.
2. Continuation of the Townhouse Estates multi-family plat phase at 1119 South 1200 West.
