INTRODUCTION

This volume of appendices is organized around the three areas of data collected and analyzed in support of the justice court portion of the Mississippi Court Finance, Management, and Personnel Study (report title, Mississippi Justice Courts: Financial and Organizational Analysis.) The data in these appendices are presented as a separate volume to aid the readability of the primary report and to prevent that report from being physically imposing. Although these data support observations made in the report, it is felt that they are not required to be physically a part of the report volume because essential data have been extracted and included in the report as figures, charts and tables.

The first data set was compiled from two sources: 1) the 1976 county audit reports provided by the State Department of Audits, and 2) a questionnaire mailed to each of the 82 chancery clerk offices. Appendix I summarizes by county the revenue and disbursements for justice court criminal cases during fiscal year 1976 (from the county audit reports). Appendix II is a copy of the questionnaire sent to, and returned from, the 82 chancery clerk offices; Appendices III and IV present summaries of these data for fiscal years 1977 and 1978 respectively (format is the same as Appendix I).

The second data set was compiled from the 1976 and 1977 reports filed by the justice court judges with the Office of the Secretary of State. These reports are required to be filed at the end of each calendar year and contain financial information for individual justice court judges in the areas of: 1) receipts from the county treasury, 2) receipts from sources other than the county treasury, and 3) disbursements. On all of these computer printouts, the counties

are coded by number; Appendix V contains the code key which is simply the counties numbered by alphabetical order. Appendices VI and VII present the justice court receipts from the county treasury for calendar years 1976 and 1977, respectively; these receipts include fees for state cases, eminent domain cases, and other receipts. Appendices VIII and IX present justice court receipts from sources other than the county treasury for calendar years 1976 and 1977, respectively; these receipts include fees for marriages, civil cases, notary, and other fees. Appendices X and XI present justice court disbursements for calendar years 1976 and 1977, respectively. These disbursements are categorized by salaries paid, rent, and other expenses. Appendices XII and XIII summarize the justice court receipts and disbursements for calendar years 1976 and 1977, respectively; these summaries are categorized by total receipts from the county treasury, total receipts from other sources, grand total receipts, and total disbursements. Appendices XIV and XV present justice court case volume computations for calendar years 1976 and 1977 respectively.

Data Set III is composed of that information which was collected by on-site visits to the sample of 105 justice courts. The data collection summary form is presented at Appendix XVI. The total data set was programmed into the computer in blocks of compacted numerics to reduce computer cost. The print-out of the master data set is in the same format, "DOS/DITTO,"\* and is not presented in this document. Appendix XVII presents one analysis prepared from this data set regarding post-judgment actions in civil cases; present in this analysis are data concerning pre-judgment actions in civil cases, post-judgment actions in civil cases, total civil cases, and the percent of post-judgment actions of total civil cases. Appendix XVIII presents another analysis extracted from this data set, the physical relationship of the justice court judges to the county seat in their counties.

This concludes the data sets included in this volume. Analyses conducted on these data sets which are not mentioned here are included in the primary volume entitled Mississippi Justice Courts: Financial and Organizational Analysis and are discussed there.
