Tall Bearded Iris

When to Plant

Northern Regions
Plant 25ct plugs in LWi-MSp

Southern Regions
Plant 25ct plugs in LWi-ESp

ABBREVIATION CODES

- E** Early (mid to late May)
- M** Mid (late May to early June)
- L** Late (early to mid-June)
- RE** Usually repeats bloom
- FR** Fragrant

Tall Bearded Iris plugs are available in 25ct trays, pictured below, for spring shipping January 9 - April 8, 2017. They typically require 6-8 weeks to finish for spring sales.

We highly recommend ordering early as these popular items typically sell out.

Hardy in zones 3-10.

Iris 'Beverly Sills'

Photo courtesy of The California Flowerbulb Company, Inc.

Iris 'Earl of Essex'

Iris 'Feed Back'

IRGFB25 (Hager) Large, blue-violet blossoms with yellow beards. Ruffled petals are displayed in a widely flared form. Strong, well-branched stems. Pronounced sweet fragrance. Our best rebloomer here in Michigan. Reblooms to zone 4.

Traits: 36in-EM-RE-FR-25ct **D**

Iris 'Feed Back'

Iris 'Beverly Sills'

IRGBS25 (Hager) Uniform coral pink self with lacy edges and impeccable form. An extremely fast grower and very heavy bloomer. Still one of the most sought-after irises today. Reblooms to zone 5.

Traits: 35in-EM-25ct **D**

Iris 'Earl of Essex'

IRGEE25 (Zurbrigg) A plicata type Iris: white flowers have orchid violet veining and stippling on the edges. Pale orange beards are infused with pale violet. Strong rebloomer to zone 4.

Traits: 35in-E-RE-25ct **D**

Iris 'Harvest of Memories'

IRGHM25 (Zurbrigg) Radiant yellow self with widely ruffled petals. Slight sweet fragrance. Dependable rebloom in summer and fall. Displays outstanding branching and bud count. Vigorous grower. Reblooms to zone 4.

Traits: 38in-M-RE-FR-25ct **D**

Iris 'Harvest of Memories'

Tall Bearded Iris

Iris 'Immortality'

Iris 'Immortality'
IRGIM25 (Zurbrigg) Ruffled, pure white self with pale lemon-yellow beards. Strong sweet fragrance. Nearly ever-blooming once established. Has the most consistent reblooming ability throughout the country. Reblooms to zone 3.

Traits: 29in-M-RE-FR-25ct **D**

NEW! Iris 'Maui Moonlight' Intermediate Bearded Iris
IRGMM25 (Aitken) This intermediate bearded iris is shorter than typical Tall Bearded Iris, but still demands a presence in the garden. Bright lemon yellow flowers have incredibly ruffled edges. Great branching means good flower power in the landscape.

Traits: 23in-M-25ct **D**

New!

Iris 'Maui Moonlight'

New!

Iris 'Night Owl'

Photo courtesy of Bouwmeester Plants

NEW! Iris 'Night Owl'
IRGNO25 (Schreiner) This dark-flowering Iris variety is aptly named because of its rich, near-black, dark violet-blue flowers. In bright sunlight, you'll notice the velvety texture of the petals. Light ruffling make this iris very eye-catching and attractive.

Traits: 38in-ML-25ct **D**

NEW! Iris 'Shipshape'
IRGSH25 (Babson) This is a classic blue iris with a long flowering season because of its high bud count. Medium blue flowers are large and wide with attractive ruffling and flaring. Winner of the American Dykes Medal, the highest award that an Iris can receive.

Traits: 38in-M-25ct **D**

New!

Iris 'Shipshape'

Photo courtesy of Bouwmeester Plants

NEW! Iris 'Sultan's Palace'
IRGSH25 (Schreiner) Choose this regal variety if you're looking for an Iris with rich color. Velvety maroon-red petals have slightly ruffled falls for a graceful look.

Traits: 34in-M-25ct **D**

NEW! Iris 'Titan's Glory'
IRGTG25 (Schreiner) This Dykes Medal winner is one of the best purple Iris on the market. Fragrant, intensely dark violet purple flowers are large and ruffled.

Traits: 37in-EM-25ct **D**

Iris pallida 'Argentea Variegata'
IRGAV25, IRGAVG1 (Sweet Iris) Striking green and ivory striped form. New foliage emerges with creamy yellow margins that fade to ivory as the season progresses. Classic lavender-blue flowers in late spring. The most reliable and disease resistant of all Tall Bearded Irises.

Traits: 34in-E-25ct & G1 **D**

Iris pallida 'Variegata'
IRGVA25, IRGVAG1 (Sweet Iris) Striking golden variegated foliage with green and creamy yellow stripes make this one attractive even when not in bloom. Classic lavender-blue flowers. The most reliable and disease resistant of all Tall Bearded Irises.

Traits: 34in-E-25ct & G1 **D**

Iris pallida 'Argentea Variegata'

Iris pallida 'Variegata'

Siberian Iris

Unlike their tall bearded cousins, Siberian Irises prefer moist soil and bloom a bit later. Their slender, spiky leaves add wonderful texture to the landscape even when the plants are not in bloom.

Iris sibirica 'Butter and Sugar'

IRSBG1, IRBSG2 (Siberian Iris)
Creamy white standards, butter yellow falls, and greenish-yellow veins. May rebloom in fall. Performs best in moist, acidic soil. Blooms before the Japanese but after the Tall Bearded.

28in/ESu/Z3-9/G1 & G2 **D**

Iris sibirica 'Caesar's Brother'

IRSCB1, IRSCB2 (Siberian Iris)
Deep purple self and a yellow and white blaze with black veining. Performs admirably in moist, acidic soil. Blooms before the Japanese but after the Tall Bearded.

36-42in/ESu/Z3-9/G1 & G2 **D**

Iris sibirica 'Contrast in Styles'

IRSCG1 (Siberian Iris) This showy selection is named for its incredible contrasting color patterns. 3-5in flowers have rich wine purple standards and falls with lighter blue-purple styles. Semi-flaring falls display prominent white and yellow signals with purple veining.

28-34in/ESu/Z3-9/G1 **D**

NEW! *Iris sibirica* 'Over in Gloryland'

IRSOGG1 (Siberian Iris) An especially showy selection. 5in wide, deep blue-purple standards and falls have a light yellow and cream blaze with blue-purple veining. Blooms before the Japanese but after the Tall Bearded.

34in/ESu/Z3-9/G1 **D**

Limited Supply.

Iris sibirica 'Ruffled Velvet'

IRSRV1, IRSRV2 (Siberian Iris) A dramatic selection with red-purple standards, velvety darker purple falls, and a black and gold blaze. Performs admirably in moist, acidic soil. Blooms before the Japanese but after the Tall Bearded.

24-30in/ESu/Z3-9/G1 & G2 **D**

'*Iris sibirica* 'White Swirl'

IRSWG1, IRSWG2 (Siberian Iris)
Widely flared, ivory-white self, with a touch of gold near the throat. One of the finest whites available. Performs admirably in moist, acidic soil. Blooms before the Japanese but after the Tall Bearded.

30in/ESu/Z3-9/G1 & G2 **D**

'White Swirl'

I Louisiana Iris

Louisiana Irises have very large, beardless flowers with wide, open flaring petals. They require boggy to consistently moist, acidic soil and regular fertilization.

Photo courtesy of Niels Mulder

Iris 'Black Gamecock'

Iris 'Black Gamecock' (Louisiana Group)

IRLBGG1 (Louisiana Iris) Known for having "outrageous vigor", this iris multiplies rapidly when sited properly. Blooms reliably each year. Huge 4-6in flowers open flat to display their velvety deep purple petals with a narrow gold signal.

2-3ft/ESu-MSu/Z4-10/G1 Ⓛ

Japanese Iris

Japanese Iris rhizomes should be planted 2-3in deep in heavy, rich, acidic, consistently moist soil. Never let the soil dry out. With proper care, they will become large, healthy plants with huge flowers.

Iris ensata 'Lion King'

Iris ensata 'Lion King'

IRELKG1 (Japanese Iris) This extraordinary, majestic plant produces gigantic 7-8in, fully double blossoms with standards and falls much larger than the species. Each petal displays a wide, grape purple edge that feathers into the pure white center. Tall, stately perennial.

3-4ft/ESu/Z4-9/G1 Ⓛ

Knautia macedonica 'Thunder and Lightning' PP21437

Knautia macedonica 'Thunder and Lightning'

PP21437

KNATL30, KNATL72 (Knautia) Light green leaves are shaped like lightning bolts with creamy yellow to white margins. Compact, shorter selection with the same deep reddish purple flowers as the species. We ship clean stock.

12-18in/ESu-EFa/Z5-9/30 & 72ct Ⓛ

Asexual propagation prohibited.

Kniphofia hirsuta 'Fire Dance'

KNIFD30, KNIFD72 (Red Hot Poker) Shorter variety better suited to smaller city gardens. Coral red and yellow flower spikes are produced atop a low-growing, thick clump of narrow, arching, blue-green foliage. Hardest selection to date from Jelitto Seeds.

20in/ESu-LSu/Z4-9/30 & 72ct Ⓛ

Kniphofia 'First Sunrise' PP16036

Kniphofia hirsuta 'Fire Dance'

Kniphofia 'First Sunrise'

PP16036

KNIFSG1 (Red Hot Poker) This floriferous hybrid from hybridizer Luit Van Delft sets the garden ablaze with loads of solid fluorescent orange, torch-shaped flower spikes. Forms a relatively compact clump of green, strap-py foliage. A colorful perennial for hot, dry areas.

30-36in/ESu-LSu/Z5-9/G1 Ⓛ

Asexual propagation prohibited.

Lagerstroemia BARISTA™ Collection

L

BARISTA™ Crapemyrtles are specifically bred for the Northern market. These selections perform well in our West Michigan climate, overwintering in our zone 6 winters. All of the members of this collection bloom on new wood.

Lagerstroemia 'Bubble Tea' PPAF

NEW! Lagerstroemia 'Bubble Tea' PPAF
WGI Introduction!

LAGBT20, LAGBT72 (Crapemyrtle) This crapemyrtle will have attractive, semi-glossy, medium green foliage for you to enjoy all summer long. In late summer, the round habit explodes with flower buds that bubble up to the top of the shrub with enormous, triangular-shaped bright lilac purple flower clusters.

2½-3ft/LSu-EFa/Z6-9/20 & 72ct ☉
Asexual propagation prohibited.

Lagerstroemia 'Cherry Mocha' PPAF

Lagerstroemia 'Cherry Mocha' PPAF
WGI Introduction!

LAGCM20, LAGCM72 (Crapemyrtle) A very refined shrub for the landscape. Woody, burgundy-colored stems bear semi-glossy burgundy foliage. Cherry red flowers open from shiny red buds, contrasting nicely with its dark foliage.

2-2½ft/LSu-EFa/Z6-9/20 & 72ct ☉
Asexual propagation prohibited.

Lagerstroemia 'Frappe Pink' PPAF

Lagerstroemia 'Frappe Pink' PPAF
WGI Introduction!

LAGFP20, LAGFP72 (Crapemyrtle) The most floriferous of the BARISTA™ Collection. Coral red buds open to perfectly formed, true pink flower clusters. Well branched, brown, woody stems hold rich green dark leaves. New growth at tips are glossy deep red.

2-2½ft/LSu-EFa/Z6-9/20 & 72ct ☉
Asexual propagation prohibited.

Lagerstroemia 'Like a Latte' PPAF
WGI Introduction!

LAGLL20, LAGLL72 (Crapemyrtle) A petite habit with branched, woody stems. Attractive, dark green foliage with burgundy veining. In late summer, coppery red buds open to pure white flowers.

1½-2ft/LSu-EFa/Z6-9/20 & 72ct ☉
Asexual propagation prohibited.

NEW! Lagerstroemia 'Spiced Plum' PPAF
WGI Introduction!

LAGSP20, LAGSP72 (Crapemyrtle) An exciting new color to the collection. Rosy red flower buds open to raspberry purple flowers. Dark red stems hold deep green leaves with heavy olive highlights, forming a compact, rounded habit as stellar as the flowers.

2-2½ft/LSu-EFa/Z6-9/20 & 72ct ☉
Asexual propagation prohibited.

Lagerstroemia 'Sweet Macchiato' PPAF
WGI Introduction!

LAGSM20, LAGSM72 (Crapemyrtle) Upright, branched, and bushy selection. Dark blue-green foliage with glossy deep red new growth. In late summer, glossy red buds burst open to sweet, hot pink flower clusters with mustard yellow stamens.

2½-3ft/LSu-EFa/Z6-9/20 & 72ct ☉
Asexual propagation prohibited.

When to Plant

Northern Regions

Plant G1s in ESp-LSp
Plant 30s in LWi-LSp
Plant 72s in LSu (best)-ESp

Southern Regions

Plant G1s in Fall, MWi-ESp
Plant 30s in MWi-ESp
Plant 72s in EFa, MWi-ESp

Lavandula angustifolia
'Blue Cushion'

Lavandula angustifolia 'Essence Purple' PPAF

Lavandula angustifolia
'French Perfume'

Lavandula angustifolia 'Hidcote'

Lavandula angustifolia 'Blue Cushion'

LAVBCG1 (English Lavender)
Many compact lavenders have smaller flowers and uneven flowering, but this one forms a compact, rounded cushion of fragrant, grey-green foliage topped with a uniform, dense mass of deep blue flowers which lighten to pale blue.

16in/ESu-LSu/Z5-9/G1 Ⓞ

Lavandula angustifolia 'Essence Purple' PPAF

LAVEUG1, LAVEU72 (English Lavender)
One of the very best in our trials; consistently outstanding performance. Forms a perfectly rounded, uniform, dense clump of green, aromatic foliage. Retains its shape all season. Bright blueberry colored flowers bloom early.

18in/ESu-EFa/Z5-9/G1, 72ct Ⓞ
Asexual propagation prohibited.

Lavandula angustifolia 'French Perfume'

LAVFP30, LAVFP72 (English Lavender)
This award winning selection blooms the first year

from seed; a quick turn for growers. Grey-green foliage forms a compact, rounded mound topped with intensely fragrant, deep purple flowers.

12-16in/MSu-EFa/Z5-9/30 & 72ct Ⓞ

Lavandula angustifolia 'Hidcote'

LAVHIG1, LAVHI30, LAVHI72 (English Lavender)
Very fragrant, deep violet-purple flower spikes fill the air all summer long with their sweet perfume. The silver-grey foliage remains compact, making it a good choice for edging.

16-18in/MSu-EFa/Z5-9/G1, 30 & 72ct Ⓞ

Lavandula angustifolia 'Munstead'

LAVMSG1, LAVMS30, LAVMS72 (English Lavender)
Rich lavender flower spikes all summer long. Its compact habit and relatively short stature makes this selection a good choice for edging.

One of the hardiest lavender. 12-16in/LSp-LSu/Z5-9/G1, 30 & 72ct Ⓞ

Lavandula angustifolia
'Silver Mist'

LAVSMG1, LAVSM72 (English Lavender)
The brightest silver foliage of any Lavender; ghostly whitish appearance from a distance. Forms a bushy, very well-branched, uniform clump of aromatic foliage. Lavender purple flowers appear a bit later than typical Lavenders. Rare selection.

16-20in/MSu-EFa/Z5-9/G1, 72ct

Lavandula x intermedia 'Grosso'

LAVGRG1, LAVGR72 (English Lavender)
A cross between L. angustifolia and L. latifolia. Fragrant, plump, violet-blue flower spikes. Blooms a bit later than the others and may rebloom in fall. Especially good for cutting.

24-30in/MSu, EFa/Z5-9/G1, 72ct

Lavandula x intermedia
PHENOMENAL™

('Niko' PP24193)

LAVPHG1, LAVPH72 (English Lavender)
Popular new selection from Peace Tree Farms. Tolerates warm and cold extremes without dying back, resistant to common diseases, and a strong grower in production and landscapes. Large hedge type; forms a dense, very broad mound of silvery green foliage topped with long, rich lavender purple flower wands. Very hardy.

24-32in/MSu-LSu/Z4-9/G1, 72ct

Asexual propagation prohibited.

Lavandula a. SWEET ROMANCE®

Lavandula angustifolia
SWEET ROMANCE®

('Kerlavangem' PP23001)

LAVSRG1, LAVSR72 (English Lavender)
This early blooming lavender flowers well without vernalization. Plump, rich violet purple, branched flower spikes top the compact mound of grey-green foliage beginning early summer. A staple item for every sunny garden.

12-18in/ESu-EFa/Z5-9/G1, 72ct

All propagation prohibited.

What Sets Our Bare Root Lavender Apart

Here in West Michigan, we are blessed with sandy loam soils, reliable snow cover, and moderate temperatures. Lavender naturally thrives under these conditions. We carefully manage the growth, shaping, and digging of our bare root lavenders to ensure our customers receive the highest quality, generously sized #1 Grade material.

Our bare root lavenders easily fill out premium 1-gallon containers and have a short finish time. Since the foliage has already been shaped for you, there is less labor required for you to grow attractive finished plants. For a relatively small input cost, you can have high margin plants finished in just 6-8 weeks in spring.

Leucanthemum AMAZING DAISIES™ Collection

AMAZING DAISIES™ are a must-have for any garden—shining in both landscapes and combination containers. Full sun and good drainage are a must to grow these varieties successfully.

Leucanthemum superbum AMAZING DAISIES™
'Banana Cream' PP23181

Leucanthemum superbum AMAZING DAISIES™
DAISY MAY® ('Daisy Duke' PP21914)

Leucanthemum superbum AMAZING DAISIES™ **'Banana Cream' PP23181**

WGI Introduction

LEUBC30, LEUBC72 (Shasta Daisy) Huge 4-5in flowers open lemon yellow, brightening to light butter yellow and finally to creamy white as they mature. Buds are produced at each axillary shoot, ensuring a long season of bloom. Vigorous grower with excellent disease resistant, compact, dark green foliage. Suitable for containers. 15-18in/ESu-LSu/Z5-9/30 & 72ct ①

All propagation prohibited.
Proven Winners® label and container required.
Recommended Finish Size: Premium 1-Gallon

Leucanthemum superbum AMAZING DAISIES™ **DAISY MAY® ('Daisy Duke' PP21914)**

LEUDM30, LEUDM72 (Shasta Daisy) Incredibly impressive, super compact, highly floriferous selection. 3in, single, pure white, daisy-like flowers form a solid dome of blooms. Grows 20-24in tall and blooms early into late summer in the Midwest; shorter and longer blooming in warmer zones.

12-24in/ESu-LSu/Z5-9/30 & 72ct ②
All propagation prohibited.
Proven Winners® label and container required.
Recommended Finish Size: Premium 1-Gallon

Leucanthemum superbum 'Alaska'

Leucanthemum superbum 'Becky'

Leucanthemum superbum 'Highland White Dream'

Leucanthemum superbum 'Spoonful of Sugar' PPAF

Leucanthemum superbum 'Snowcap'

Leucanthemum superbum 'Thomas Killen'

Leucanthemum superbum 'Alaska'

LEUAL30 (Shasta Daisy) Broad 3in wide flowers are pure white with yellow centers. They are borne on long stems which are perfect for cutting. This is the hardiest strain of Shasta available.

24-36in/ESu-LSu/Z4-9/30ct 🍷

Leucanthemum superbum 'Becky'

LEUBE30, LEUBE72 (Shasta Daisy) Durable in hot, humid summers. 3in, single, white blooms on strong stems are ideal for cutting. Does not require staking.

36-42in/ESu-LSu/Z5-9/30 & 72ct 🍷

Leucanthemum superbum 'Highland White Dream'

LEUHW30 (Shasta Daisy) Often compared to the award winning 'Becky', this selection displays the same exemplary garden performance. Very large, 4in, white flowers are semi-double and are held on starkly upright stems.

24-30in/ESu-LSu/Z5-9/30ct 🍷

Leucanthemum superbum 'Snowcap'

LEUSN30, LEUSN72 (Shasta Daisy) Pure white, 2-3in single flowers are produced in profusion atop compact, bushy mounds of foliage. Sturdy uniform plants. Due to its compact nature, this variety tolerates adverse weather conditions better than the others. Suitable for containers.

12-15in/ESu-LSu/Z5-9/30 & 72ct 🍷

NEW! *Leucanthemum superbum* 'Spoonful of Sugar' PPAF

WGI Exclusive Introduction

LEUSS30, LEUSS72 (Shasta Daisy) Boasts an enormous flower size and an incredibly compact, dome-like habit. 4½in, creamy white flowers have two rows of very long petals that are held tight against the attractive, dark green foliage. A free-flowering variety.

16-18in/ESu-LSu/Z5-9/30 & 72ct 🍷

Asexual propagation prohibited.

Leucanthemum superbum 'Thomas Killen'

LEUTK30, LEUTK72 (Shasta Daisy) Though technically a single, this variety has a double row of petals and crested golden centers, giving the flowers a fluffy appearance. The thick, fleshy stems make this variety especially good for cutting.

24-30in/ESu-LSu/Z5-9/30 & 72ct 🍷

Leucanthemum superbum 'Whoops-a-Daisy' PPAF

Leucanthemum superbum 'Whoops-a-Daisy' PPAF

WGI Exclusive Introduction

LEUWD30, LEUWD72 (Shasta Daisy) Improvement over 'Snowcap'; better flower coverage, fuller blossoms, and a more compact, uniform habit. Forms an exceptionally dense, rounded ball-shaped mound of dark green foliage blanketed by large 3-4in, white flowers with gold centers. Blooms without vernalization. Suitable for containers. 15-18in/ESu-MSu/Z5-9/30 & 72ct ① Asexual propagation prohibited.

Liatris spicata 'Floristan Violet'

LIAFVG1 (Gayfeather, Blazing Star) Wands of bright violet-purple flowers open from top to bottom. Narrow, opposite leaves are up to 10in long at the base of the plant and decrease in length up the stems. Adds a strong vertical element to the garden.

3-4ft/ESu-LSu/Z3-9/G1 ⑤

Liatris spicata 'Floristan White'

LIAFWG1 (Gayfeather, Blazing Star) Multiple wands of creamy-white flowers open from top to bottom. Narrow, opposite leaves are up to 10in long at the base of the plant and decrease in length up the stems. Adds a strong vertical element to the garden.

3-4ft/ESu-LSu/Z3-9/G1 ⑤

Liatris spicata 'Kobold'

LIAKOG1, LIAKOG2 (Gayfeather, Blazing Star) **Seed form.** Bright rosy lavender flower wands open from top to bottom. Narrow, opposite leaves are up to 10in long at the base of the plant and decrease in length up the stems.

18-30in/ESu-MSu/Z3-9/G1 & G2 ⑤

Liatris spicata 'Kobold Original'

LIAKDG1 (Gayfeather, Blazing Star) **Vegetative selection.** A cultivar that offers uniformity in height. Stock is totally from division, not from seed.

18-24in/ESu-MSu/Z3-9/G1 ④

Ligularia 'Bottle Rocket' PP24486

Ligularia 'Bottle Rocket' PP24486

Ligularia 'Bottle Rocket' PP24486

WGI Introduction

LIGBR20, LIGBR72 (Ligularia) A more compact sport of 'Little Rocket'; delivers excellent garden performance. Perfectly proportional plant forms a dense clump of thicker, serrated green leaves with mustard yellow flower spikes held on chocolate stems just at the top of the foliage. Foliage holds up well in the summer heat.

28-34in/MSu/Z4-9/20 & 72ct ①

All propagation prohibited.

Proven Winners® label and container required.

Recommended Finish Size: Premium 1-Gallon

Ligularia dentata 'Britt-Marie Crawford'
PP16113

LIGBC20, LIGBC72 (Bigleaf Ligularia) Broad, glossy, chocolate-purple leaves with bright purple undersides make a bold statement in the garden. Golden orange, daisy-like flowers on purplish-black stems. A top seller!

3-4ft/LSu/Z4-9/20 & 72ct ⓘ
Asexual propagation prohibited.

Ligularia dentata 'Midnight Lady'

LIGML30 (Bigleaf Ligularia) This economically priced seed strain forms a large clump of broad, dark bronze purple, serrated leaves topped with golden or-

ange, daisy-like flowers on dark stems. Makes a bold statement. From Jelitto Perennial Seeds.

35-40in/LSu/Z4-9/30ct ⓘ

Ligularia 'King Kong' PPAF
WGI Exclusive Introduction!

LIGKK20, LIGKK72 (Bigleaf Ligularia) Same dark foliage as 'Britt-Marie Crawford' but with leaves nearly twice as big at 16in across. Newest leaves are glossy black-purple that mellow to burgundy purple. Greener leaves in full shade--best in morning sun. Golden orange, daisy-like flowers.

3-4ft/LSu/Z4-9/20 & 72ct ⓘ
Asexual propagation prohibited.

Liriope muscari 'Big Blue'

LIRBB30 (Blue Lily-turf) Evergreen, grass-like plant with dark green, strappy leaves and a vase-like habit. Delightful lilac-purple flowers resembling grape hyacinths are displayed above the foliage. Clump-former. Tolerates dry shade.

12-18in/MSu/Z5-10/30ct ⓘ

Lobelia cardinalis

LOBCA30, LOBCA72 (Cardinal Flower) This lovely native species is an excellent plant for moist to wet sites. Very tall, upright spikes of true fire red flowers are presented atop the green foliage and are useful for adding color late in the season. Attracts hummingbirds and butterflies.

3-4ft/LSu-MFa/Z3-9/30 & 72ct ⓘ

(Lupine) Members of this series grow about 1ft shorter and bloom about two weeks earlier than the Russell Hybrids. Several flower stems are produced per crown. Available in mixed and single color strains.

18-24in/ESu/Z4-6/30 & 72ct 

Lupinus Popsicle Series – Blue

LUPPB30, LUPPB72 Large spikes of solid purple-blue flowers are produced in early summer.

Lupinus Popsicle Series – Mixed

LUPPM30, LUPPM72 A colorful mix of blue, purple, yellow, red, pink, and bicolor flowers.

Lupinus Popsicle Series – Pink

LUPPP30, LUPPP72 Large, solid pink or pink/white bicolor flowers are produced in early summer.

Lupinus Popsicle Series – Red

LUPPR30, LUPPR72 Large spikes of solid red flowers are produced in early summer.

Lupinus Popsicle Series – Mixed

Lupinus Popsicle Series – Blue

Lupinus Popsicle Series – Pink

Lupinus Popsicle Series – Red

Lychnis arkwrightii 'Orange Gnome'

LYCOG30 (Maltese Cross) Brilliant, orange-scarlet flowers measuring 1½in across are produced in abundance for nearly 8 weeks. Dark green leaves are flushed with purplish-bronze and are an excellent foil for the blossoms.

12-15in/ESu-MSu/Z3-9/30ct 

Malva sylvestris 'Zebrina'

MALZE30, MALZE72 (Hollyhock Mallow) Soft pink flowers with striking, raspberry-purple markings like a pinwheel. These 2in wide, blossoms are produced in great abundance nearly all season long. Heat and drought tolerant.

2-4ft/ESu-MFa/Z4-8/30 & 72ct

Nepeta faassenii
'Purrsian Blue' PP24788

WGI Exclusive Introduction
NEPPBG1, NEPPB72 (Catmint)
This compact selection forms a densely mounded clump of green, aromatic foliage and nearly doubles its spread in year two. Highly floriferous; periwinkle blue flowers with dark purple calyxes are produced for months.
14-18in/ESu-EFa/Z3-8/G1, 72ct ☉
Asexual propagation prohibited.

Nepeta faassenii
'Walker's Low'

NEPWLG1, NEPWL72 (Catmint)
Grey-green, aromatic foliage on long, arching stems. Lavender blue flowers are produced over a long period in summer.
2-3ft/ESu-MSu/Z3-8/G1, 72ct ☉

Oenothera kunthiana
'Glowing Magenta'

OENGM30, OENGM72 (Evening Primrose)
Fuzzy buds open to deep pink, 4-petaled flowers atop the prostrate, spreading mound of dark green foliage. An unusually compact selection.
6-12in/ESu-LSu/Z5-8/30 & 72ct ☉

Oenothera missouriensis

OENMIG1 (Ozark Sundrop)
Canary yellow, mildly fragrant, 3in wide flowers. Dark green, lanceolate leaves. Following the blooms, unusual 2-3in long, 4-winged seed pods develop which are beautiful in dried floral arrangements.
9-12in/ESu-MSu/Z3-8/G1 ☉

Ophiopogon planiscapus
'Niger'

OPHNI30 (Black Mondo Grass)
Grass-like plant forms a compact, dense clump of nearly jet black foliage. Looks much like a black Liriope. Short spikes of light purple to white flowers are followed by purplish black berries in fall.
6-8in/ESu-MSu/Z5-9/30ct ☉

pgs 160

Tree Peonies
page 161

Garden Peonies
page 162-163

Intersectional Peonies

Intersectional peonies are created by crossing herbaceous and woody tree peonies. They offer the best qualities of both including: large flowers in unique colors, robust herbaceous foliage, strong weather resistant stems, longer bloom time, extreme winter hardiness, and increased vigor.

Paeonia 'Bartzella'

Due to supplier stock issues, intersectional peonies are very limited. We *strongly encourage* you to order early for best availability.

Paeonia 'Bartzella'

PAEBAG1 (Intersectional Peony) Roger Anderson's best intersectional peony introduction. Huge 6-8in, semi-double to double, pastel yellow flowers have a small rose purple flare in the center and a pronounced sweet scent. Blossoms are neatly spaced on the top and sides of the sturdy clump of healthy green, tree peony-like foliage.

30-36in/LSp/Z4-9/G1 **TD**

NEW! Paeonia 'Joanna Marlene'

PAEJMG1 (Intersectional Peony) 4-6in, semi-double soft yellow blossoms. This peony takes on more peachy tones as the flowers mature, with pink guard flowers. One of breeder Roger Anderson's favorites.

24-36in/LSp/Z4-9/G1 **TD**

Paeonia 'Sequestered Sunshine'

PAESEG1 (Intersectional Peony) Huge 7in, single to semi-double, bright canary yellow blossoms are produced on strong stems that are great for fragrant, fresh bouquets. Flowers are accented by a central boss of showy yellow stamens and red flares. Forms a dense, sturdy clump of dark green, attractively dissected foliage.

3-3½ft/LSp/Z4-9/G1 **TD**

Paeonia suffruticosa 'Hanakisoj'

Paeonia suffruticosa 'High Noon'

Paeonia suffruticosa 'Hoki'

Paeonia suffruticosa 'Renkaku'

Paeonia suffruticosa 'Shimadaijin'

Paeonia suffruticosa 'Shimanishiki'

***Paeonia suffruticosa* 'Hanakisoj'**

PATHAG1 ('Floral Rivalry') (Tree Peony)
Apricot-pink petals with a soft pink edge.
Semi-double blossoms.
4-5ft/LSp/Z4-7/G1

***Paeonia suffruticosa* 'High Noon'**

PATHNG1 (Tree Peony) A strong grower that
flowers freely in late spring and occa-
sionally reblooms in fall. Very large 6-9in,
semi-double, fragrant, clear yellow flowers
with red flares.

4-5ft/LSp/Z4-7/G1

***Paeonia suffruticosa* 'Hoki'**

PATHOG1 ('Sweet 17') (Tree Peony) Lipstick
red, semi-double blooms. Makes a dramati-
c statement in the garden.
4-5ft/LSp/Z4-7/G1

***Paeonia suffruticosa* 'Renkaku'**

PATREG1 ('Flight of Cranes') (Tree Peony)
Lightly fragrant, very large 8in, upward
facing, semi-double blossoms are pure
white with delicately fringed petals. Strong
grower.

3-4ft/LSp/Z4-7/G1

***Paeonia suffruticosa* 'Shimadaijin'**

PATSIG1 ('Island Minister') (Tree Peony) Rare
Imperial Peony with majestic 8in, semi-dou-
ble, fragrant, rich magenta purple blossoms.
Incredible specimen plant.
3-5ft/LSp-ESu/Z4-7/G1

***Paeonia suffruticosa* 'Shimanishiki'**

PATSHG1 ('Fire Flame') (Tree Peony) Two-
toned reddish purple flowers striped with
white. Semi-double.
4-5ft/LSp/Z4-7/G1

Top 10 reasons why Peonies don't flower:

1. It is planted too shallow or too deep.
2. It is getting too much Nitrogen fertilizer.
3. It is over or undernourished. Peonies thrive with little care and limited amounts of fertilizer.
4. The flower buds were killed by a late frost, disease, or excessive heat.
5. There was not enough sunlight to produce flowers.
6. The plant is too young or immature.
7. The clump is too large or overcrowded.
8. It has been moved or divided too often.
9. The plant was cut back before the foliage turned brown in the fall.
10. The soil is too wet or too dry.

Paeonia 'Coral Sunset' (Semi-Double)

PAECS3E (Garden Peony) Breeder Roy Klehm's favorite! Intense sunset coral, semi-double blossoms with rose overtones and a fluffy boss of deep yellow stamens are lightly fragrant and long lasting in fresh bouquets. Prized for its exemplary plant habit.

28in/LSp/Z3-8/3-5 eye **D**

Paeonia 'Dr. Alexander Fleming' (Double)

PAEDA3E (Garden Peony) Fragrant, fully double, pink blooms abound in early summer. Many side buds are produced, extending the bloom time. The central petals have a tendency to curl inward, achieving a sphere-like shape.

30in/ESu/Z3-8/3-5 eye **D**

Paeonia 'Duchess de Nemours' (Double)

PAEDN3E (Garden Peony) Fragrant, white, globe-shaped blooms with green carpels and a yellow center glow. This prolific bloomer has attractive foliage and strong stems.

34in/LSp/Z3-8/3-5 eye **D**

Paeonia 'Felix Crousse' (Double)

PAEFC3E (Garden Peony) Carmine-red petals with a silvery sheen are lavishly produced in early summer. This is a fragrant, double variety. Frequently used in commercial cut flower production.

28in/ESu/Z3-8/3-5 eye **D**

Paeonia 'Coral Sunset'

Paeonia 'Dr. Alexander Fleming'

Paeonia 'Duchess de Nemours'

Paeonia 'Felix Crousse'

Paeonia 'Festiva Maxima' (Double)

PAEFM3E (Garden Peony) Noticeably fragrant, fully double, white blooms with red drizzled throughout the center. Massive, loose flower form. A reliable bloomer. One of the most widely cultivated peonies. 34in/LSp/Z3-8/3-5 eye **D**

Paeonia 'Kansas' (Double)

Back By Popular Demand

PAEKA3E (Garden Peony) Large, bright watermelon red flowers which are fully double appear on strong, dark green stems in early summer. The color is sunfast, ensuring top performance, and it contrasts well with the mid-green foliage. 32in/ESu/Z3-8/3-5 eye **D**

Paeonia 'Karl Rosenfield' (Double)

PAEKR3E (Garden Peony) Brilliant fuchsia-red blooms are a double, semi-rose type. They make wonderful mildly fragrant cut flowers. Blooms from early to midsummer. 34in/ESu-MSu/Z3-8/3-5 eye **D**

Paeonia 'Mons. Jules Elie' (Double)

Back By Popular Demand

PAEMJ3E (Garden Peony) Broad, smooth, rose-pink guard petals surround a mound of recurved, silvery-pink petals, giving the flower a slight two-toned effect. This bomb peony blooms in early summer. 30in/ESu/Z3-8/3-5 eye **D**

Paeonia 'Paula Fay' (Semi-Double)

PAEPF3E (Garden Peony) This award winning peony is incredibly showy in bloom

and is revered for its excellent habit and dark green foliage. Glowing hot pink, large, semi-double flowers have a central boss of bright gold stamens and are produced on strong stems. 35in/LSp/Z3-8/3-5 eye **D**

Paeonia 'Sarah Bernhardt' (Double)

PAESB3E (Garden Peony) Gigantic, double, apple blossom-pink flowers are an old fashioned favorite. This variety blooms from early to midsummer. Selected as the 2004 Dried Cut Flower of the Year by the Association of Specialty Cut Flower Growers. 34in/ESu-MSu/Z3-8/3-5 eye **D**
