KEY FEATURES

FEATURES

22.3MM ULTRA WIDE ANGLE LENS

Whether you're shooting a vast expanse of green space or a sprawling cityscape, get more from your lens. By using the precision-cut 22.3mm ultra wide-angle lens, you can instantly cover a whole-horizon field of view. Capture memories of landmarks and landscapes in full scale with no need to step back and frame your shot.

16.2MP EFFECTIVE MEGAPIXELS CCD SENSOR

The 16.2 effective megapixels CCD sensor is engineered to help you capture high-quality, low-noise images with lots of pixels and excellent light. With larger sensors that are typically found in compact digital cameras, the 1/2.3" CCD offers unrivaled sensitivity, making it possible to capture ultra-vivid, natural-looking professional photos of sunbathers and windsurfers alike, regardless of conditions.

BRIGHT 3.0" LCD

The brilliant 3.0" (76.2mm) hVGA LCD automatically detects environmental illumination and adjusts the LCD brightness for optimal viewing while shooting or during playback. The functional design of the WB1100 works along with the hVGA LCD ensuring that you get a firm grip of the camera body for steady shots and playback. With the LCD's improved contrast and color reproduction, the easy-to-handle WB110 lets you enjoy clearer images.

SMART AUTO

Turn fleeting moments into memories with professional-style results. The Samsung Smart Camera's Smart Auto automatically analyzes the shooting environment and then chooses the appropriate scene mode for the best possible results. Smart Auto analyzes key elements in the composition and automatically adjusts its various modes to capture the best shot.

LIVE PANORAMA

With Live Panorama, you can capture a seemingly endless procession of gondolas gliding past a magnificent Venetian palace with an astounding 180° panoramic image. Preview the image on the LCD screen before you even snap it. Just hold the shutter button, sweep across the scene and see what you're going to get before you get it.

SMART FILTER

Samsung's Smart Filter lens effect delivers an artistic edge to your still shots and video. The Miniature filter gives your subjects a miniaturized look, the Vignetting filter delivers a strikingly strong compositional contrast and our Fish-eye filter gives your photos that circular fisheye feel.

MAGIC FRAME

Make a portrait look like an antique, or put your face on the moon – Magic Frame's background templates offer lots of picture-taking enjoyment. You can also put images on a 1950's TV set or a movie.

720P HD MOVIE RECORDING

Whether you're hiking through an idyllic meadow or strolling past a butterfly bush in bloom, shoot HD-quality videos wherever you go. This stylish, yet powerful camera captures 720p HD-quality video at 30 frames per second – clearer than the average compact digital camera video – for memories as vivid as the day they happened.

WI-FI

NFC and Wi-Fi enabled features like Photo Beam, AutoShare, Remote Viewfinder and Mobile Link let you share images to compatible smartphones right next to you or on the other side of the world. Photo Beam easily sends any photo that you're viewing to a smartphone instantly. AutoShare saves photos to your smartphone as you shoot and with effortlessly post photos to social networks, store them on the cloud, and back them up to your PC. You can also monitor a sleeping baby from another room.

WI-FI SOCIAL SHARING

Show off a fabulous selfie with the rest of the world in no time flat. As long as you have a Wi-Fi connection, you can post images and videos directly to Facebook, YouTube, and now Flickr. Tag and add comments, too. You can also upload photos right to your blog, or email them to your family. Feel free to keep shooting, because your Smart Camera also comes with 2GB of free Dropbox web storage or 50GB if you have a GALAXY smartphone.

AUTOSHARE

Save every photo you take with your smartphone. After you set it up, Samsung AutoShare will automatically send every snap instantly to your smartphone or tablet via Wi-Fi that is powered by NFC technology. Using your smartphone, AutoShare also GPS-tags your photos. Sharing your treasured memories couldn't be any faster — or easier.

SAMSUNG LINK

Effortlessly save every moment you've captured. Samsung Link instantly and wirelessly streams your photos your PC or favorite web storage service such as Dropbox. No more waiting to go home to manually upload images. With one touch, you can show off photos and videos on your Smart TV or send them to any compatible smartphone. Sharing has never been this easy.

PHOTO BEAM

When a friend wants a copy of that really great shot you took of her, now you can share it right away. Samsung Photo Beam lets you send photos to anybody with just the touch of your camera. Simply tap your Smart Camera on any NFC-compatible smartphone to automatically share whichever image you're currently viewing. It's that simple.

PC AUTO BACKUP

Wirelessly transfer photos and movies to your PC or Mac. Simply select PC Auto Backup and you're all set. All your photos and videos are wirelessly transferred and safely stored on your computer. Feel free to delete photos from your camera knowing there's a duplicate set on your computer.

MOBILE LINK

Now you can select and send photos or albums directly to a smartphone or tablet with Samsung Mobile Link. No Wi-Fi hotspot is required; the wireless connection is enabled by NFC technology. You don't even have to send the photos as a text message or an email. With Mobile Link, you can control the album on your phone and the changes will be saved to your camera, too.

WI-FI GROUP SHARE

From family brunches to nights out with friends, you can share all of the shots that your friends and family members want with your Samsung Smart Camera. Use Group Share to send images to up to four people simultaneously. Group Share eliminates the frustration of having to repeat the sharing process over and over again, so you will have more time for taking share-worthy snaps.

REMOTE VIEWFINDER

Control your camera by using your smartphone as the viewfinder. The NFC-enabled Remote Viewfinder lets you preview photos, adjust camera settings, zoom in and out, and frame each scene — all wirelessly from your phone. Available for select smartphones, this feature also GPS-tags your photos using your smartphone.

Samsung microSD Cards

Standard Lineup With Adapter

Product Brief

From the No. 1 name in memory.

Samsung Memory has been No. 1 since 1992, and no one has produced memory cards with better performance or reliability than the engineers of Samsung memory. With proven experience for 19 consecutive years, Samsung memory delivers the highest level of performance with unmatched style.

Everyday Performance

Samsung's Standard microSD Card lineup is the perfect solution for casual mobile devices users. With solid transfer speeds of up to 24MB/s, they work great to expand the capacity of a tablet computer or cellular phone.

"4-Proof" Protection

Samsung microSD cards can endure 24 hours submerged in water and survive the perils of airport X-ray machines, magnetism and extreme temperatures.

Trust Samsung with your precious moments.

Samsung memory cards are designed to withstand water, shock, magnets, temperature, x-rays and just about anything else. So your memories will survive – even if your camera doesn't.

From the #1 name in memory, Samsung SD cards will protect your special moments no matter what life throws at them.

Samsung Memory Cards. Memory for Life.
