### Abstract

Systematic list of Aplacophora, Polyplacophora and Scaphopoda from Uruguay. Aplacophoran, polyplacophoran and scaphopod species recorded for the Uruguayan malacofauna are listed. These are: 1 Neomeniomorpha and 3 Chaetodermomorpha (Aplacophora), 5 Polyplacophora, 4 Dentaliida and 2 Gadilida (Scaphopoda). In addition, the record of the scaphopods *Cadulus platensis*, *Pertusiconcha callithrix* and *Graptacme perlonga*, from nearby Argentine waters is considered erroneous. The correct locality for these, as well as for four gastropod species mentioned for the same station, is indicated.

### Keywords

Mollusca, Neomeniomorpha, Chaetodermomorpha, Polyplacophora, Dentaliida, Gadilida,  
southwestern Atlantic, Uruguay.
