

Figure S5. The LIN cladogram.

The LIN cladogram obtained from the ML tree originally published by Lindner *et al.* [2014], by removing the branches connecting taxa non included in DNA.92T and TOT.92T sets.

Lindner A., Cairns SD, Zibrowius H. *Leptohelia flexibilis* gen. nov. et sp. nov., a remarkable deep-sea stylasterid (Cnidaria: Hydrozoa: Stylasteridae) from the southwest Pacific. *Zootaxa* 2014; 3900: 581-591.
