

## FORMATOS BIBLIOGRÁFICOS

Una bibliografía debe citar todas las fuentes utilizadas, incluyendo documentos de Internet, entrevistas personales, programas de televisión, publicaciones de CD-ROM, así como materiales impresos como libros artículos de periódicos y revistas, trabajos de referencia, documentos gubernamentales, y similares. Existe gran cantidad de formatos bibliográficos y el alumnado deberá verificar con su director/a de Trabajo Fin de Grado cuál quiere seguir.

A continuación se brindan ejemplos de los dos principales formatos, el de la Modern Language Association (MLA), usado especialmente en Ciencias Sociales y Humanidades en general, y el de la American Psychological Association (APA) usado en Psicología.

Para este documento se han tomado los ejemplos que aparecen en [ucr.ac.cr/~rodolfor/formatos.html](http://ucr.ac.cr/~rodolfor/formatos.html)
