Plant trees - improve the environment!

GREETINGS FROM WILSON'S NURSERY

He who plants a tree, plants hope. - Lucy Larcom

In order for something to grow, it must be nurtured and cared for. We are reminded of this daily working with plants. This reminder is one of the greatest gifts we can be given through our work as it allows us to take what we learn in the nursery and carry it with us into every aspect of our lives. Spring will come, followed by summer, and our plants will slowly return to their vibrant cycle of growth and they will come alive with all of their wonderful fragrances and beautiful blossoms. Like the plants, those of us working in the green industry will also come fully alive doing the work that we love. Our commitment at Wilson's Nursery for the 2023 season is to listen to what the plants have taught us about providing nurture, care, love, and respect, and incorporate these things into everything we do at the nursery. From building a vibrant, nurturing culture among all of our colleagues at the nursery, to providing you - our customers- with everything you need to grow and thrive in your own business. You can count on us to set the highest standard for partnership. We wish you the best in 2023 and cannot wait to grow alongside you and together become the best we can be.

Warm regards,

All of us at Wilson's Nursery

Rest is not idleness, and to lie sometimes on the grass under trees on a summer day, listening to the murmur of the water, or catching the clouds float across the sky, is by no means a waste of time. - Sir John Lubbock

PLANT HANDLING AND DELIVERY

Wilson's Nursery maintains an extensive delivery vehicle fleet, allowing us to deliver orders of any size efficiently and with a quick turnaround time. As much advance notice as possible is appreciated when placing an order for delivery. This will assure that we are able to deliver your materials on the day and time they are needed.

For larger deliveries, we have invested in what we feel is one of the best plant handling and delivery systems available. With stackable steel pallets and a 48' curtain van, we can quickly load and unload materials with a significantly reduced risk of plant damage.

ORDER PROCESSING

When you place an order with us it is our goal to process it as quickly as possible and prevent you or one of your employees from having to wait for it. For us to have your order ready and waiting when you arrive, we ask that we be allowed a minimum of 4 business hours from the time the order is placed, to pull and prepare the order. If an order is placed outside of regular business hours, we ask that we be allowed 4 hours after the start of our next regular business day for your order to be prepared. This will assure that your order will be ready when you arrive. As always, if you prefer to pull your own order, you are welcome to do so anytime during regular business hours. If pulling your own order, please allow adequate time to select and load your materials and complete the sale prior to the close of regular business hours.

BUD & BLOOM PROGRAM

Get on our Bud & Bloom email list to receive a weekly update on plants that are looking especially outstanding! The list will be published by Wednesday each week and we reserve truck capacity for delivery to independent retail garden centers ahead of the weekend rush! Pallet-drop service is available for efficient and easy deliveries! Contractors, sign up for the Bud & Bloom email for weekly color and inspiration! To get on the email list simply text “Bud & Bloom” to (952) 239-2263 or visit www.wilsonsnurseryinc.com and register an account. Call with any questions!

CUSTOM GROWING

Do you have a large project with a high volume of plant material? With Wilson's Nursery Custom Growing Program, we can grow any plant you need to spec AND you can save money with our volume discounts. We have had much success with this program working with contractors, independent garden centers, and municipalities. Call or email orders@wilsonsnurseryinc.com to discuss your project.

NATIVES

Throughout this catalog there are several trees, evergreen, shrub, and perennials that are marked **NATIVE**. All these items are native to Minnesota. New this year, these items are also listed under their own tab towards the back of the catalog to make referencing them easier.

Please allow a minimum of 4 business hours for processing of all orders

ABOUT OUR SUPER 2

You will notice throughout our catalog that many of our shrubs and evergreens are listed as Super 2 (S2) containers. This is the same pot we previously sold as a #3 container, but because it is less than a 3-gallon capacity – but larger than what many growers call a #2, we refer to it as a Super 2. It holds approximately 2.5 gallons. We find that this pot gives a superior root system and holds moisture better while waiting on the job to be installed. We feel this provides a superior product for our customers.

You will also notice that ‘Proven Winners’ and ‘First Editions’ plants are in their own branded pots. They are designated as PW or FE.

In nature, nothing is perfect and everything is perfect. Trees can be contorted, bent in weird ways, and they're still beautiful. - Alice Walker

Haralred Apple **H 20 ft W 20 ft (Zone 4)**

Malus 'Haralred'

Semi-dwarf tree bears tart, crisp dark red fruit early to mid fall. One of the most popular apples in Minnesota. Often bears fruit the first year.

#10 Container...122.00 1 ½" B/B...209.00 2" B/B...329.00 2 ½" B/B...385.00

Haralson Apple **H 12-15 ft W 14 ft (Zone 4)**

Malus domestica 'Haralson'

Crisp, juicy and keeps well when refrigerated. Tart flavor is great for cider and baking.

#10 Container...122.00 #20 Container...147.00

Hat Trick Apple **H 20 ft W 25 ft (Zone 4)**

Malus 'Hat Trick'

Honeycrisp, Sweet Sixteen and Zestar grow on this espaliered tree. Grows against a wall or fence.

#20 Container...219.00

Honeycrisp **H 18 ft W 18 ft (Zone 4)**

Malus 'Honeycrisp'

Very crisp, juicy red apple with intense sweet flavor. Excellent storage life. Ripens in late September.

KinderKrisp Apple **H 10-12 ft W 10-14 ft (Zone 4)**

Malus 'KinderKrisp'

Exceptional flavor and texture. Smaller fruit makes this a great apple for snacking. Ripens in late August.

#10 Container...122.00 1 ½" B/B...209.00 2" B/B...329.00

NEW Pink Lady Apple **H 15-20 ft W 8-10 ft (Zone 4)**

Malus domestica 'Scripps Pink'

Produces apples later in the season (late October). Has a sweet, crisp, tart flavor at the first bite followed by just the right amount of sweet. Perfect for eating as well as cooking.

#10 Container...122.00

Please allow a minimum of 4 business hours for processing of all orders

Snow Sweet Apple H 12-16 ft W 10-14 ft (Zone 4)

Malus domestica 'Snowsweet'

Crisp and juicy with a slight tart balance and rich overtones. Snow white flesh is very slow to oxidize after being cut. Ripens in mid-October.

#10 Container...122.00

Zestar Apple H 18 ft W 18 ft (Zone 4)

Malus 'Zestar'

Crisp, sweet juicy fruit with delicious tart flavor. Stores better than most early apples. Ready for picking in late summer to early fall.

#10 Container...122.00 1 ½" B/B...209.00

APRICOT

Brookcot Apricot H 8-12 ft W 8-12 ft (Zone 3)

Prunus 'Brookcot'

Bright yellowish-orange fruit with a red blush. Fruit is juicy and sweet with a good flavor for fresh eating or canning. Semi-freestone, 1.25" diameter fruit ripens in early August. Self-fertile variety though yield increases with cross pollination.

#10 Container...122.00

Debbie's Gold Apricot H 10-15 ft W 8-10 ft (Zone 3)

Prunus 'Debbie's Gold'

Yellowish fruit, 1.5" in diameter. Firm texture and a less sweet flavor make fruit better suited for canning, though is enjoyed fresh by many. Freestone fruit ripens in late July. Self-pollinating though yield increases with cross pollination.

#10 Container...122.00

ASPEN

Prairie Gold Aspen H 30 ft W 15 ft (Zone 4)

Dropmore Scarlet Honeysuckle (Zone 4)*Lonicera x brownii 'Dropmore Scarlet'*

Bright orange-scarlet tubular flowers from June to September. Aggressive.

#1 Container...15.00 S2 Container...25.00

HONEYSUCKLE

Scentsation Honeysuckle (Zone 4)*Lonicera periclymenum*

Very showy vine with extremely fragrant yellow flowers from mid-spring thru late summer, followed by bright red berries. Not invasive like many honeysuckle varieties.

PW #3 Container...22.00

HOPS

Cascade Hops (Zone 4)*Humulus lupulus 'Cascade'*

Fast growing and easily trained on a fence or trellis. Attractive cone-like flowers in late summer and have a pine-like fragrance. Dies back to crown in winter.

#1 Container...13.90

Nugget Hops (Zone 4)

Vigorous lush green climber typically grown on a fence of string trellis. Produces pale greenish-yellow cones in late summer. Mulch in winter for protection.

#1 Container...13.90

HYDRANGEA

Climbing Hydrangea (Zone 4)*Hydrangea anomala ssp petiolaris*

Lacy white blooms are displayed on this adaptable vine that is shade tolerant but also thrives in full sun. Make sure the supportive structure is substantial (works well growing on tree trunks or brick structures) as once established it will cover a very large area.

IVY

Boston Ivy (Zone 4)

Parthenocissus tricuspidata

Dense, clinging vine with glossy green foliage in summer and bright orange-red in fall.

#1 Container...16.75

Engelmann Ivy (Zone 4)

Parthenocissus quinquefolia 'Engelmanni'

Smaller leaves and less vigorous than Boston Ivy and clings better to masonry. Deep burgundy fall color. Small blue fruits attract birds. Xeriscape plant.

#1 Container...16.75

Red Wall Engelmann Ivy (Zone 4)

Parthenocissus quinquefolias 'Troki'

This native vine has dark green foliage that turns to fire-engine red in the fall; blue fruit in fall. This fast-growing and salt-tolerant native vine is the easiest way to create a colorful 'green' wall.

PW #3...23.50

TRUMPET VINE

Flamenco Trumpet Vine (Zone 4)

Campsis raiicans 'Flamenco'

Rich orange-red flowers that bloom from mid to late summer. Perfect for covering arbors, fences and walls. Loved by hummingbirds!

#1 Container...12.50

WISTERIA

Summer Cascade Wisteria (Zone 4)

Wisteria macrostachya 'Betty Matthews'

Blooms on new wood producing masses of deep blue-lavender flowers in June. Blooms fade, leaving seed pods for winter interest. More reliably hardy than other varieties.
