From Jeff Cordell's listing of harpacticoids:
“*Longipedia americana* Wells, 1980. Lower intertidal into the subtidal, in medium sand and/or mixtures of sand and mud. Abundant in sediment around eelgrass, *Zostera marina*, and often occurs in near-bottom plankton net samples. Other species in this genus may be present. Key to the species: Wells 1980, Zool. J. Linn. Soc. 70: 103-189..”
